About the City of Oak Park

The City of Oak Park is a great place to live and work. It is located near the southeast corner of Oakland County, Southeast Michigan, and approximately 3.5 miles from Macomb County and adjacent to the northern boundary of the City of Detroit. The City contains approximately 5.5 square miles with a population of 29,023 persons as reported by the U.S. Bureau of Census as of July 1, 2024.

The City operates under the Council-Manager form of government as established in its Charter adopted on October 29, 1945. The City Council is comprised of a Mayor, elected at-large every two years, and four Council members, two elected at-large every two years for four year terms. The City Council is responsible for enacting ordinances, resolutions and regulations governing the City. City Council also appoints the members of various statutory and advisory boards and commissions, the City Manager, and the City Attorney. The City Manager is responsible for enforcement of laws and ordinances established by City Council. The City Manager also appoints and supervises the heads of departments of the City organization.

The City of Oak Park is a fully developed mature city with modest homes, shopping and tree-lined streets. The American Dream is a reality in Oak Park. Although literally dozens of ethnic heritages are represented in our population, we share the same basic values, ambitions and opportunities. This is a great place to raise a family and to live the American Dream. People from miles away and from continents away have chosen to live in Oak Park because the character of our community matches the ideals professed by our motto: "The Family City." We live side-by-side as neighbors and community partners. The City is supported by a diversified business community consisting of many small and medium sized businesses. If you have a business in Oak Park, or you are interested in locating your business in Oak Park, you are invited to join the 8 Mile Boulevard Association. Oak Park has many proud traditions and accomplishments but most importantly endeavors to provide exceptional services to its residents and business owners.

Budget Document

Among the many things the City does on an annual basis, the most important of all of the activities is the creation of the annual budget adopted by City Charter on the second meeting in May. The enclosed budget is a three-year budget that includes the budgets for FY2025-26, FY2026-27, and FY2027-28 respectively. The Council will acknowledge this multi-year budget in the form of a resolution. The City prepares the multi-year projection based on the best data available at the time. The research includes obtaining data from the County and the State of Michigan. This future outlook allows the City to plan rather than react to anticipated financial conditions.

Included in this document is an overview of City activities and a detailed description of investments in City infrastructure and payments for services to its employees. The City has 10 departments including Public Safety that operate under a City Manager/City Council form of government. As such, the City Manager is hired by the majority of the members of City Council to serve as the Chief Executive of the City's administration.

The budget provides a financial plan to execute the Budget Program Strategies which are funded through the General Fund, Special Revenue Funds and other sources; and includes payment of debt. A glossary of terms is included within the Statistical Information and Supplemental Data section with definitions for these and other budget and financial terms.

The budget document consists of the following sections:

- The **City Manager's Budget Message** highlights the program strategies and budget plan priorities.
- The **Community Statistical Information** section provides general informational demographic information pertaining to the City of Oak Park that may be of interest to the reader of the budget document.
- The **Budget Overview** provides a summary of the significant budget items and trends as well as short and long term factors that influenced the decisions made in the development of the upcoming budget.
- The **Financial Structure, Policy, and Process** provides an organization chart, a summary of the financial and budget policies, basis for budgeting, process of budget preparation and the relationship between all funds. This section also will discuss entity-wide long-term financial policies.
- The **Departmental Information** section includes citywide personnel summary of all positions. It also contains descriptions of the activities, services and functions of the departments, their goals and objectives, and measures for accomplishing those goals.

- **Financial Summaries** includes a description of all funds as well as the City's three-year operating budgets for all funds including prior year actual and current year estimated ending balances. This section presents the major revenues, expenditures and other financing sources and uses as well explains the underlying assumptions for any estimates and discusses any trends. Projected changes in fund balance are included for all funds. The Financial Summaries include the **General Fund, Authorities, Special Revenue Funds, Debt Service Funds, Capital Project Funds, Enterprise Funds, Internal Service Funds** and **Fiduciary Funds**. A description of each fund type and their purpose is described in the Financial Structure, Policy and Process section of this document.
- The **Supplemental Information** section provides a Glossary of the various budget and financial terms used throughout this budget.
- **Resolutions** contain the three final resolutions approved by the Mayor and City Council as part of the budget process which include adoption of the annual property tax millage rates and budget (including acknowledgement of the multi-year budget) and water and sewer rates.

DATE: May 19, 2025

TO: The Honorable Mayor and City Council

FROM: Erik Tungate, City Manager

SUBJECT: TRANSMITTAL OF THE PROPOSED THREE-YEAR BUDGET FOR FISCAL YEARS 2025-26, 2026-27, and 2027-28.

Dear Mayor and Oak Park City Council Members:

I am pleased to deliver the recommended FY 2025-26 budget, and the projected budgets for FY 2026-27, and FY 2027-28. Based on the City's Financial Policies, the Capital Improvement Plan, City Council Goals, and my comprehensive review of operations, this balanced budget reflects a reasonable approach to meeting our most critical needs while continuing to position the City for long term financial stability. Although the City is faced with a number of challenges, the budget is balanced for the next three years, and leaves the City with an approximately \$4.56 million "rainy day" fund. These challenges include the continuing fallout from compounded healthcare cost increases, out of control inflation, long term liability costs, and a broken funding model for municipalities across the State of Michigan. As always, my staff and I continue to work diligently to overcome these challenges and I believe we have a strong foundation for the future.

OPERATING BUDGET HIGHLIGHTS

Challenges

The City currently faces many challenges presented by increased inflation, as well as the final stage of the City's taxable value recovery from the 40% taxable value reductions as a result of the fallout from the Great Recession of 2008. While property values are returning to pre-recession levels, the State limits the amount of revenue realized by the City. The Headlee Amendment and Proposal A limit the growth of the taxable value of existing property to the rate of inflation or 5 percent, whichever is less. The City does not capture additional taxes even when a property is sold and the taxable value is uncapped, as such increases must be offset by a reduction in the tax rate. For Oak Park that means the tax revenue lost during the Great Recession will not return for several more years. We continue to do everything we can to deliver the same superior services to our residents. In FY 2007-08 one mill was worth \$722,313. In FY2014-15 the revenue received from one mill was reduced to \$434,000. In this budget, we are predicting one mill be worth approximately \$760,000 due to the ever-increasing level of economic development and

new residents moving in. Additionally, the State has reduced the amount of money it provides local municipalities in revenue sharing significantly. In 2002 Oak Park received \$5 million dollars in revenue sharing. The City is slated to receive \$4.5 million in FY 2025-26 (as of the publishing of this document). This has resulted in a considerable cumulative decrease over the years. Based on the amount of revenue sharing received in 2002, the City has experienced approximately a \$28 million cumulative loss to date.

In addition to relatively stagnant revenue growth, the City is simultaneously faced with rising legacy costs for pensions and retiree healthcare. For the next fiscal year, healthcare rates alone are expected to rise over 7 percent. The cumulative effect of costs rising at a rate higher than we are gaining revenue means that it is becoming increasingly difficult to keep up with these operating and long-term legacy costs while continuing to provide the same level of services.

The budget includes the actuarially required contribution for each pension and retiree healthcare system, as well based on the City's two pension systems on a 19-year amortization period to reach fully funded status.

Opportunities / Cost Savings

While the City is still faced with many challenges, my staff and I are regularly searching for ways to cut costs and increase revenue to offset the losses we have experienced.

In an attempt to control the increasing costs of healthcare, Oak Park has collaborated with the cities of Ferndale, Hazel Park, Madison Heights and Royal Oak to provide a municipally sponsored Wellness Center. Through this partnership, the cities have contracted with a third-party healthcare organization, Premise Health, to provide primary care services to employees. Through this model the City is able to realize a savings with each appointment an employee schedules through the Center versus the marketplace. Additionally, this model assists the City in offering employees a comprehensive health and wellness program, while also decreasing the cost of overall healthcare for employees.

The City has also seen some modest improvements since the passage of PA 345, a millage originally passed by Oak Park residents in November 2012 to provide additional revenues to be used towards the Public Safety Employees' retirement costs. This millage provided and is projected to provide \$5,007,000 in FY 2024-25 and \$5,320,000 in FY 2025--26. The absence of this millage would result in the City having to cut costs in other service areas in order to fund these growing legacy costs.

In addition, the City's Economic Development Department continues to grow the City's tax base by attracting new businesses. The increase in businesses and development simultaneously increases our tax base, beautifies vacant properties, and brings employment opportunities to Oak Park.

General Fund Expenditures

General Fund expenditures are budgeted at \$26.5 million in FY 2025-26, a decrease of \$1,363,270 from projected FY 2024-25 expenditures. This increase is attributed mainly to a rise in health care expenses, increases in wages, the subsequent increase in fringe benefits, offset by a reduction in expenditures for capital improvement projects. With the proposed budget being balanced, the General Fund Balance or "rainy day" fund would be approximately \$4.56 million, or 17 percent of projected expenditures.

The chart below represents the City's General Fund expenditures by category.

General Fund Expenditures

General Fund expenditures are budgeted at \$26.5 million in FY 2025-26, a slight increase of \$164,050 from projected FY 2024-25 expenditures. This increase is attributed mainly to a rise in health care expenses, increases in wages, the subsequent increase in fringe benefits, offset by a reduction in expenditures for capital improvement projects. With the proposed budget being balanced, the General Fund Balance or "rainy day" fund would be approximately \$4.56 million, or 17 percent of projected expenditures.

The chart below represents the City's General Fund expenditures by category.

Water and Sewer Utility Fund

Our top priority is to continue to provide well maintained water and sewer services, while responsibly preserving a fund balance to safeguard against unforeseen circumstances. In FY 2025-26, I am recommending that we do not increase our stormwater utility rates and continue with the zero-unit minimum bill configuration. Also, I am recommending a modest rate increase of 6% for FY 2025-26 for water and sewer variable rates which would equate to an increase of approximately 6% annually for the average customer.

Rubbish Collection Fund

I am not recommending a rate increase for FY 2025-26 although the City will need to continue to maintain a fund balance to provide for future cost increases as well to bear the cost of supplying trash receptacles to every resident.

FINANCIAL ASSESSMENT

I am proud to report the budget I am proposing for FY 2025-26 is balanced and will not require us to use the General Fund Balance if revenues continue to rise, expenses from the fallout from the Coronavirus outbreak, including the related supply chain issues, continue to diminish, and overall operating costs can be curtailed.

With all of the progress we have made in the last several years, this continues to be an exciting time for the City of Oak Park. The City continues to reach new heights despite lingering challenges associated with loss of revenue from the 2008 financial fallout, economic uncertainty, as well as high inflation.

Respectfully,

Erik Tungate
City Manager

CITY COUNCIL GOALS

In 2021, during a comprehensive strategic planning work session, the Oak Park City Council met to discuss a strategic plan intended to highlight the most important needs and concerns of the community. During the planning session City Council adopted a new vision, mission, and statement of values for the City of Oak Park. City Council also identified and adopted six areas of focus that include measurable objectives meant to guide the priorities of the City through 2026.

Our Vision

The City of Oak Park will lead the region as the most dynamic city in Metropolitan Detroit, serving as a destination as a vibrant, cutting-edge community.

Our Mission

In the City of Oak Park, we strive to provide the highest quality of life for our residents in everything we do. We pride ourselves on the richness of our cultural diversity and our safe and secure neighborhoods. We actively encourage residential and business growth. We are business minded and family-centered.

Our Values

Prioritizing our public's well-being first; Operating with integrity and maintaining the trust of our residents; Providing the highest quality programs and services; Serving as good stewards of our financial and physical resources; Delivering honest, responsive government; Attracting innovation, community development and business enterprise.

STRATEGIC PLAN 2021 – 2026

The City of Oak Park implements continuous improvement practices that result in accountability, transparency and maximized operating efficiency and effectiveness within a culture that supports divergent business functions and initiatives.

- Goal 1: Deepen sense of place and community identity
- Goal 2: Foster an engaged, informed community
- Goal 3: Cultivate organizational excellence
- Goal 4: Provide efficient, resilient government
- Goal 5: Ensure a safe and comfortable environment for everyone
- Goal 6: Encourage environmentally sustainable practices

GOAL 1: DEEPEN SENSE OF PLACE AND COMMUNITY IDENTITY

Through the expansion of dynamic commercial and industrial corridors, preservation of the integrity of our neighborhoods, and events and amenities that celebrate Oak Park's diversity

Objective 1: Attract and retain a mixture of robust businesses into the City

Objective 2: Improve the overall appearance of commercial corridors and industrial districts

Objective 3: Encourage a mixture of robust development throughout the City

Objective 4: Uphold the City's Redevelopment Ready Certification

Objective 5: Combat blight issues in residential neighborhoods

Objective 6: Update City park signage

Objective 7: Preserve and increase the City's tree canopy

Objective 8: Celebrate Oak Park's diversity through events and programs that attract people throughout the region

Objective 9: Offer affordable mobility options

Objective 10: Obtain "Age Friendly" designation

Objective 11: Expand housing options

Objective 12: Invest in public art experiences

Objective 13: Provide programming that responds to the needs of all demographics in the Community

Objective 14: Foster social interaction and a sense of ownership at all of the City's public spaces

Objective 15: Identify the best uses for City property to ensure equitable access to quality public spaces

GOAL 2: FOSTER AN ENGAGED, INFORMED COMMUNITY

Through meaningful, timely communications, and ample opportunities for resident engagement with their government and each other

Objective 1: Ensure effective, meaningful communication with the community

Objective 2: Cultivate a culture of civic involvement

Objective 3: Maintain a comprehensive Citizen's Guide for residents

Objective 4: Increase positive media coverage

GOAL 3: CULTIVATE ORGANIZATIONAL EXCELLENCE

Through the development of a workplace culture that focuses on continuous improvement, accountability, engagement and healthy lifestyles

Objective 1: Provide high quality, friendly, responsive customer service

Objective 2: Use data and benchmarking to analyze and assess our services annually

Objective 3: Develop ongoing succession plans

Objective 4: Increase employee engagement

Objective 5: Expand professional development opportunities

Objective 6: Foster a meaningful connection between staff members and the City's Strategic Plan

Objective 7: Provide a workplace environment that supports healthy lifestyles

GOAL 4: PROVIDE EFFICIENT, RESILIENT GOVERNMENT

Through a commitment to financial sustainability, innovation and best practices

Objective 1: Maintain financial reserves

Objective 2: Improve the City's bond rating

Objective 3: Receive recognition from the Government Finance Officers Association (GFOA) for excellence in budgeting and financial reporting

Objective 4: Secure grants to help fund City projects and capital expenses

Objective 5: Partner with neighboring jurisdictions, as appropriate, to accomplish common goals and maximize efficiencies

Objective 6: Utilize current software systems to expand online services for residents and businesses

Objective 7: Ensure the City is effectively safeguarding its data

Objective 8: Review ordinances and permitting processes for relevancy and efficiency

Objective 9: Improve efficiency of FOIA requests

Objective 10: Ensure efficiency of elections

GOAL 5: ENSURE A SAFE AND COMFORTABLE ENVIRONMENT FOR EVERYONE

Through continued investment in public safety services and sustainable infrastructure throughout the City

Objective 1: Ensure adequate street lighting throughout the City

Objective 2: Provide high quality public safety services

Objective 3: Sustain and expand a safe and comprehensive transportation network for all users

Objective 4: Reach 100% lead free in all City and private water lines

Objective 5: Consistent, strategic investment in water sewer infrastructure

Objective 6: Incorporate green infrastructure in all City projects, whenever possible

GOAL 6: ENCOURAGE ENVIRONMENTALLY SUSTAINABLE PRACTICES

Through a commitment to sustainable practices within City facilities and projects, and the promotion of such practices to businesses and residents

Objective 1: Provide more opportunities to recycle throughout the City

Objective 2: Increase environmentally sustainable practices in all City buildings

Objective 3: Promote environmental sustainability practices to residents and businesses

Revenue Trends

Property Taxes

Property taxes are expressed in terms of millage with one mill being equal to \$1.00 per thousand dollars of taxable value.

Assessing records maintain two values for each property in the City. Prior to Proposal A all property was taxed based on the State Equalized Value (S.E.V.), which represents 50% of true cash value. Proposal A limits the increase in value attributed to market change to the lower of 5% or the Inflation Rate Multiplier (previously referred to as Consumer Price Index). The one exception is the properties changing ownership, which brings the taxable value back up to the S.E.V.

The following shows recent history of taxable values and percentage change from prior years:

Tax Year	Taxable Value (in millions)	% Change
2016	\$ 440	0.90%
2017	\$ 458	0.94%
2018	\$ 488	4.26%
2019	\$ 510	6.41%
2020	\$ 522	2.70%
2021	\$ 545	4.24%
2022	\$ 599	9.78%
2023	\$ 649	8.41%
2024	\$ 711	9.86%
2025	\$ 760	6.44%

State Shared Revenue

The State Revenue Sharing program distributes sales tax collected by the State of Michigan to local governments. The State Revenue Sharing is unrestricted General Fund revenue and is the second largest source of revenue in that fund. The distribution of funds is authorized by the State Revenue Sharing Act, Public Act 140 of 1971. The State Shared Revenue Program consists of two components; constitutional and statutory (CVTRS). The constitutional portion is guaranteed and distributed on a per capita basis. For Fiscal Year 2025-26 the Constitutional Payment is equal to the 2020 census population multiplied by the Distribution Rate or the Distribution Rate is calculated according to three formulae: taxable value per capita, population unit type and yield equalization.

Act 51 – Michigan Transportation Fund

The State of Michigan's Constitution also provides funds for transportation purposes. Act 51 of 1951, as amended, creates the Michigan Transportation Fund, whereas revenues collected through highway user taxes, state motor fuel taxes, vehicle registration fees, and other miscellaneous automobile related taxes are distributed by formula to state trunk lines, county road commissions, cities, and villages. Below is the five year trend in Act 51 revenues for Major and Local Streets.

Fiscal Year 2025-26 Budgeted Revenues (by category)

The following represents Fiscal Year 2025-26 budgeted revenue (General Fund and Special Revenue Funds).

Significant Budget and Accounting Policies

The budgeting and accounting policies of the City of Oak Park conform to (GAAP) as applicable to governmental units, with the exception that interfund transfers are considered as any other appropriation in evaluating priorities rather than as a separate item. The following is a summary of the significant budget and accounting policies:

Basis of Budgeting

All Governmental Funds, including the legally adopted General Fund and Special Revenue Funds, are budgeted for on a modified accrual basis. As an example, employee wages are budgeted to account for the number of days scheduled for each fiscal year.

Basis of Accounting

The accrual basis of accounting is used by the Enterprise Funds. All Governmental Funds and Agency Funds use the modified-accrual basis of accounting. Modifications in such methods from the accrual basis are as follows:

Property tax revenue that is both measurable and available for use to finance operations is recorded as revenue when earned. Other revenue is recorded when received. Properties are assessed as of December 31 and become a lien then. The related property taxes are billed on July 1 of the following year. These taxes are due without a penalty during the period July 1 through August 31 with a 4% penalty added after that date. After February 28, they are added to the County tax rolls. The County Tax Revolving Fund reimburses the City for the real property portion of these taxes and assumes collection responsibilities for both real and personal property taxes.

- Non-current receivables, such as special assessments, are recorded at full value and deferred revenue is recorded for the portion not available for use to finance operations as of year-end.
- Interest income on special assessments receivable is not accrued until its due date.
- Interest on bonded indebtedness and other long-term debt are not recorded as expenditures until the due date.
- Payments for inventory type of supplies are recorded as expenditures at the time of purchase.
- Normally, expenditures are not divided between years by the recording of prepaid expenses.
- The non-current portion of accumulated employee benefits is reflected in the government-wide financial statements.

Fund Structure of Approved Budget

Annual budgets are legally adopted for the General Fund and Special Revenue Funds as required by the State's Uniform Budgeting and Accounting Act. In addition, although not required by law, budgets are prepared for the City's Debt Service, Capital Projects, Enterprise Funds, Internal Service and Fiduciary Funds. These budgets are prepared for financial management and project control purposes.

Major Fund

The City of Oak Park reports on one major governmental fund: General Fund.

Fund Accounting

The accounts of the City are organized by funds and account groups, each of which is considered a separate accounting entity. Funds are established to segregate specific activities or objectives of a government in accordance with special regulations, restrictions or limitations. The various funds are grouped into generic fund types in three broad fund categories as follows:

Governmental Funds

General Fund: The General Fund contains the records of the ordinary activities of the City that are not accounted for in another fund. General Fund activities are financed by revenue from general property taxes, state-shared revenue and other sources.

Special Revenue Funds: Special Revenue Funds are used to account for the proceeds of earmarked revenue from financing activities requiring separate accounting because of legal or regulatory provisions.

Debt Service Funds: Debt Service Funds are used to account for the annual payment of principal and interest concerning certain long-term debt other than debt payable from the operations of an enterprise fund.

Capital Projects Funds: Capital Project Funds are used to account for the development of capital facilities other than those financed by the operations of the enterprise funds.

Proprietary Fund

Enterprise Funds: These funds are used to account for the results of operations that provide a service to citizens financed by a user charge for the provision of that service.

The fund uses full accrual accounting based on Generally Accepted Accounting Principles (GAAP) and follows accounting and financial activities prescribed by the Financial Accounting and Standards Board (FASB). As long as it does not conflict with the Government Accounting Standards Board (GASB) guidance.

Internal Service Funds: The Internal Service Funds are used to report any activity that provides goods or services to other funds, departments or agencies of the primary government and its component units, or to other governments, on a cost reimbursement basis

Trust and Agency Funds

Fiduciary Funds: Fiduciary Funds are used to account for assets held by the City in a trustee capacity or as an agent for individuals, organizations, other governments or other funds. These include the General and Public Safety Employee Retirement Systems and the Retirees Healthcare Funds. These funds are custodial in nature and do not involve the measurement of results of operations.

Fixed Assets and Long-Term Liabilities

Fixed assets used in governmental fund type operations are accounted for in the government-wide financial statements, rather than in the governmental funds. Depreciation is reported on a straight-line basis for such fixed assets. All fixed assets are recorded at cost or, if donated, at their estimated fair value on the date donated. Long-term liabilities expected to be financed from governmental funds are accounted for in the government-wide financial statements, not in the governmental funds.

Fixed assets and long-term liabilities relating to the Water and Sewer Fund are accounted for in that fund. Depreciation on such fixed assets is charged as an expense against the operations of the fund on a straight-line basis.

Cash Equivalents

For purposes of the statement of cash flow, the Enterprise funds consider all highly liquid investments with an original maturity of three months or less to be cash equivalents. In addition, the statements of cash flow include both restricted and unrestricted cash and cash equivalents.

Inventories

Inventories in the Enterprise funds are valued at cost, on a first in, first out basis, which approximates market value.

Deposits and Investments

The City believes that due to the dollar amounts of cash deposits and the limits of Federal Deposit Insurance Corporation, insuring all bank deposits is impractical. The City evaluates every financial institution it deposits City funds into, assessing the level of risk.

Investments

The City is authorized by Michigan Public Act 20 of 1943 (as amended) to invest surplus monies in U.S. bonds and notes, certain commercial paper, U.S. government repurchase agreements, government agencies, Bankers' acceptances and mutual funds and investment pools that are composed of authorized vehicles.

To the extent that cash from various funds has been pooled, related investment income is allocated to each fund based on relative participation in the pool, except that investment earnings by the Agency Funds are allocated to the General Fund.

This page intentionally left blank.

Financial Policies

The City of Oak Park's financial policies, as compiled below, set forth the basic framework for the overall fiscal management of the City. Operating independently of changing economic circumstances and conditions, these policies help the decision making process of the City Council and administration. These policies provide guidelines for evaluating both current activities and proposals for future programs.

Most of the policies represent long-standing principles (i.e. traditions and practices) that have guided the City in the past and have helped maintain financial stability.

The City's financial policies serve the administration in the preparation of a balanced operating budget and management of the City's financial affairs.

Operating Budget Policies

The City will attempt to maintain its present service level for all priority and essential services within the existing property tax millage limits.

- The City will maintain a budgetary control system to ensure adherence to the budget and will prepare periodic reports comparing actual revenues and expenditures with budgeted amounts.
- The City will emphasize efforts to reduce expenditures in major cost centers (i.e. energy, medical insurance premiums, street lighting, pension cost, and Worker's Compensation payments).
- The Water and Sewer and Stormwater Utility funds will be self-supporting.
- The City will protect against catastrophic losses through a combination of insurance and maintaining appropriate fund balance levels.

Fund Balance/Reserve Policies

The City adheres to the following fund balance/reserve policies:

- The City will establish a reserve to pay for expenditures as a result of unforeseen emergencies or for shortfalls caused by revenue declines.
- The City will seek to maintain a diversified and stable revenue system to shelter itself from short-run fluctuations in any one revenue source.
- The City will attempt to obtain additional revenue sources to insure a balanced budget.
- The City will follow an aggressive policy of collecting revenue.
- The City will establish all user charges and fees at a level considering the cost (operating, direct, indirect and capital) of providing the service.
- The City will establish reserves to comply with the terms and conditions of the debt instruments used to finance capital improvement projects.
- The City will review fund balance/reserves annually during the budget process.

Financial Structure, Policy and Process

- In the event the level of expenditures exceeds the estimated appropriations, the City will create a plan to replenish fund balance/reserves within three years by controlling operating expenditures, adjusting operations and/or dedicating excess or specific revenue sources.

General Fund

For the General Fund, the reserve will be maintained at a minimum of approximately 8.33% to 16.66% of total expenditures. In the event that circumstances arise causing the fund balance to fall below the minimum level, a plan will be put in place to replenish the balance during the subsequent budget year. Additional reserves can be designated for a specific purpose as identified by City Council/City Manager during the budget process. Fund balance will be established to:

- Provide a fund or reserve to meet emergency expenditures;
- Provide cash to finance expenditures from the beginning of the budget year until general property taxes or other revenues are collected;
- Demonstrate financial stability and therefore preserve or enhance its bond rating, thereby lowering debt issuance costs;
- Accumulate sufficient assets to make designated purchases;
- Avoid short-term borrowing and associated interest costs.

As part of the budget process excess fund balance may be used to reduce liabilities or fund expenditures of the next fiscal period.

Special Revenue Funds

Resources in a fund other than the general fund are either (1) required to be used for the purpose of the fund or (2) intended by the government to be used for that purpose. Special revenue funds report specific revenue sources that are limited to being used for a particular purpose.

Street Funds (Major and Local)

The main source of funding is Act 51 revenue distributed through the State of Michigan Department of Transportation (MDOT). The funding represents the City's share of gas and weight taxes collected by the State. The revenues are used for the maintenance and replacement of all roads within the City.

Solid Waste Fund

The two main sources of funding in this fund are a dedicated property tax levy and an additional service fee for rubbish collection which is billed monthly on the water and sewer bills. The City contracts with a third party for actual rubbish collection.

45th District Court

The operations of the 45th District Court are financed by a General Fund transfer-in, probation charges and other fees. The fund also collects fines and ticket revenues on behalf of several other jurisdictions which it distributes on a monthly basis.

Other Special Revenue Funds

The fund balance for other special revenue funds Park/Recreation, Drug Law Enforcement, PA302 Justice Training, Casflow Assistance, Michigan Indigent Defense Commission (MIDC), Community Development Block Grant (CDBG), Mental Health Court Grant Fund and the Veterans Treatment Court Grant will be used for appropriations based on the specific purpose of those funds.

Capital Project Funds

Public Improvement

This fund was established for statutory public improvements. Expenditures are limited to these special projects. Revenues are limited to non-taxable funds. Examples of these revenue sources include: charges for services, permits and interest income.

City Owned Property

This fund was established in FY 2002-03 for purchases of distressed properties. Opportunities to purchase real estate become available for various reasons such as foreclosure and unpaid taxes. These homes are then brought up to code and resold. Revenues are generated through the sale of properties and interest income.

Parks and Recreation Improvement Fund

This fund was created in FY 2021-22 to make improvements to the City's parks and recreation programs, activities and various facilities. Grant funding will provide a portion of this fund's revenue.

Sidewalk Construction

The Sidewalk Program is financed completely by special assessments charged to the citizens receiving the benefit. The cost of administering the program will be included on the sidewalk billings. Revenues consist of Special Assessments and interest earned.

Municipal Building

This fund was created to provide for the construction of a new district court building or to provide improvements to the existing facility. The funding source for this fund is a portion of the fines and fees collected from ticket adjudicated at the 45th district court.

Special Assessment Fund – 11 Mile Rd. Parking Lots

This fund began during FY 2021-22 to replace and repair parking lots along 11 Mile Rd. in the City. Revenue will be generated by special assessments and General Fund contributions. A district will be created to bill the business that will be affected by these improvements.

Revenue Policies

The City will estimate its annual revenue by a conservative, objective and analytical process.

The City will review fees and charges annually. It will attempt to design and/or modify revenue systems to include provisions that automatically allow charges to grow at a rate that keeps pace with the cost of providing the service.

Non-recurring revenue will be used only to fund non-recurring expenditures.

Capital Improvements Policies

The City will develop a multi-year plan for capital improvements, update it annually and make all capital improvements according to the plan.

The City's plan includes large capital purchases and construction projects costing more than \$5,000. A Capital Improvement, as defined in this document, includes real property expenditures greater than \$5,000 that have a life expectancy of at least five years and personal property items costing more than \$5,000 with a life expectancy of at least one year.

The City will maintain its physical assets at a level adequate to protect the City's capital investment and to reduce future maintenance and replacement costs. The budget will provide for the adequate maintenance and the orderly replacement of the capital plant and equipment from current revenues where possible.

The City will use the following criteria to evaluate the relative merit of each capital project:

- Projects specifically included in an approved replacement schedule will receive priority consideration.
- Projects will be evaluated as to the impact on the operating budget; those that reduce the cost of operations or energy consumption will receive priority consideration.

Debt Policies

The City of Oak Park, as a home rule unit, presently has a statutory limit on the amount of general obligation debt outstanding. The limit on the outstanding indebtedness cannot exceed 10% of the equalized assessed valuation. Using 2023 values (the most recent available information), this limitation would allow for \$114,927,768 million in debt, as compared to the \$101,723,945 million outstanding as of June 30, 2022. Maintaining significantly lower debt levels provides for greater flexibility in issuing additional bonds should the need arise.

The maturity date for any debt may not exceed the reasonably expected useful life of the project so financed. Debt service for property tax supported obligations is structured to fit within the City's annual property tax levy budget for the repayment of principal and interest. When it is deemed to be in the best interest of the City, the City will consider refunding outstanding bonds:

- The City will maintain a sound relationship with all bond-rating agencies and will keep them informed about our current capital projects.
- General obligation debt will not be used for enterprise activities.

Investment Policies

The City's investment objectives in priority order are: Conformance, Safety, Liquidity, Yield and Diversification.

Financial Structure, Policy and Process

Disbursement, collection, and deposit of all funds will be managed to insure that all cash is invested promptly until needed.

The City will strive to maximize the return on the portfolio, with the primary objective of preserving capital by prudent investment practices.

For the City's complete investment policies please contact the Finance Department.

Accounting, Auditing and Financial Reporting Policies

An independent audit will be performed annually.

The City will produce annual financial reports following Generally Accepted Accounting Principles (GAAP) as outlined by the Governmental Accounting Standards Board (GASB).

The City will maintain strong internal audit controls.

Purchasing Policies

Purchases will be made in accordance with federal, state and municipal requirements. Purchases will be made in an impartial, economic, competitive, and efficient manner.

Purchases under \$5,000: Department's responsibility to obtain best price possible and to foster competition.

Purchases between \$5,000 and \$14,999: Require at least three (3) written quotations submitted with the purchase order.

Purchases over \$15,000: Formal sealed bids must be obtained. All invitations for bids are advertised on the Michigan Intergovernmental Trade Network (MITN) a collaboration of public entities throughout the State that collectively advertises bid opportunities through a web site at www.mitn.info. All bid openings will be public. No late or faxed bids will be accepted. All bids and/or written quotations and request for proposals are awarded by the City Council.

All extraordinary personal reimbursement requests are approved by the City Manager and must be approved in advance for any requests exceeding \$500. All purchases above \$1,000 are approved by the City Manager. All Accounts Payable voucher requests must be signed by the Department Director.

Grant Policies

The City Manager's Office reviews and approves department requests to pursue grants. Completed applications requiring a local match are presented for approval to City Council. The approval includes financing mechanism and required matching funds. Upon notice of grant award City Council approves budget and formal acceptance. The Finance Department works with the initiating department for proper reporting and program monitoring.

This page intentionally left blank.

Budget Policies and Procedures

Role of the Budget

The budget provides the annual financial plan for the management of the City's affairs. The document compiles the financial data needed to support Oak Park's comprehensive decision making/policy development process. This Budget is based on the City Council Goals, the Capital Improvements Plan, and the City's financial policies, past City Council direction, and City Manager and departmental review of operations.

Budget Strategy

The current financial plan is based upon Council direction and current revenue constraints. These factors govern the stewardship of public funds and reflect the following principles:

- Basic services will be maintained at least at current levels and will be funded adequately.
- Program costs will reflect a true picture of the cost of operations. Depreciation will not be included in program costs (except in the enterprise funds) and some City-wide expenses will be separated from program expenditures for ease of administration.
- Program services will be provided in the most efficient method while meeting the needs of the public.
- Necessary infrastructure improvements will be undertaken to meet needs.
- Revenue will be estimated at realistic levels.
- Reserves will be programmed at appropriate levels to protect the City from future uncertainties.
- The budget will comply with provisions of the State Constitution, City Charter, Municipal Code and sound fiscal policy.

Balanced Operating Budget

A balanced budget is a basic budgetary constraint intended to ensure that the City does not spend beyond its means. The City must function within the limits of the financial resources available and under normal circumstances, requires commitment to a balanced budget. The appropriated budget cannot exceed available resources, defined as revenues generated in the current period added to balances carried forward from prior years. Any deviation from a balanced operating budget requires disclosure when it occurs.

Impact of Capital Budget on the Operating Budget

As new policies and programs are approved, both the operating and capital budgets are impacted. For example, an increase in service levels approved as part of the operating budget would have long-term effects on the Capital Improvements Program. Conversely, a restrictive change to the use of long-term debt would slow capital programs.

Regardless of the difference between the operating and capital budgets, the two are interdependent. Budgetary policy states that all foreseeable operating costs related to capital projects be estimated and provided for as part of the review process associated with the Capital Improvements Program. In

Financial Structure, Policy and Process

In addition, departments are required to include costs associated with operating and maintaining capital projects that are requested for the upcoming year.

For additional information pertaining to the capital budget, please see the "Capital Improvements Program and Debt" section of this document.

Budgetary Internal Controls

The annual adopted budget provides a basis of control over financial operations. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the approved budget. Activities of the General Fund and Special Revenue Funds are included in the annual approved budget. The level of budgetary control (that is the level at which expenditures cannot exceed the appropriated amount) is established by function within each individual fund.

Independent Audit

State statutes and the City Charter require an annual audit of all accounts of the City by certified public accountants selected by the City Council. Rehmann Robson, PLLC has fulfilled this requirement. The auditor's report is included in the City's Annual Comprehensive Financial Report (ACFR) and is available to the public.

Budget Process

The City's annual budget covers a twelve-month period beginning July 1 and ending June 30. The budget is an ongoing process that includes phases of development, adoption, implementation and oversight throughout the year.

Several goals are associated with the preparation and development of the City's annual budget document. First, the budget is a policy document. The document should help foster comprehensive community problem-solving and policy making. Second, the budget is a financial plan and management tool. The document should help staff in monitoring revenue and expenditures and in evaluating the effectiveness of City programs and services. Third, the budget serves as an important reference document. It should provide the City Council, the public and staff with extensive information on the nature and scope of municipal operations and services.

Departmental Budget Requests

Particular attention is given to accurately completing all required forms and providing sufficient justification for budget requests. Operating budget impacts must be included if the request is for a capital improvement item or project.

Budget Review and Analysis

All departments meet with the City Manager for review and evaluation of budget requests. The objectives of this phase are to:

- Ensure that the intent of all budget requests is understood and that budget requests are complete.
- Gain greater understanding of departmental objectives and standards of performance and operations for the upcoming fiscal year.
- Determine how proposed budgetary programs and associated changes are related to City-wide goals and objectives.
- Develop comprehensive information and/or request further justification on budgeted items.
- Balance the needs of each department to total City needs.

Various analytical techniques are used in evaluating department budget requests. Some of these include: analysis of workloads and levels of services, evaluation of historical expenditure patterns, projection of inflationary price increases, analysis of work methods, review of work force scheduling, and review of department operations.

Building the Proposed Budget

Under the direction of the City Manager, and with the assistance of the City Assessor and other Department Heads and staff, the Finance Director prepares an initial projection of revenue for the next fiscal year. This projection is based on reasonable assumptions of revenue generated by estimated property values and current user fees, and the best available information from the State of Michigan.

Spending priorities are based on the City's financial policies and mandated requirements, and focus on maintaining services, covering insurance and bond requirements, and the balancing of labor, supplies, and equipment.

City Manager Review

Departmental review sessions are scheduled with the City Manager. After these discussions, the City Manager makes the final adjustments and works with the Finance Director and staff to prepare the draft of the Proposed Budget.

City Council Adoption

After receiving the Proposed Budget, public meetings are conducted with the City Council to familiarize members of the Council with its contents. A public hearing is also conducted to assure that all persons and organizations are provided an opportunity to be heard. The City Council then makes its revisions and adopts the budget for the next fiscal year no later than the third Monday in May.

Budget Amendment Process

After the budget is adopted, the primary responsibility for managing it falls to the individual departments. The Finance Department reviews the monthly budget reports concurrently with the departments. Management flexibility is given to each department of exceeding a line item within a function if it can be compensated for within that same function.

If a function must be adjusted, a budget amendment request is filed with the Finance Department. This request first directs the department to provide the coverage from within its department. The Finance Department reviews the request and if deemed appropriate a formal budget amendment is presented to the City Council along with a report on the status of the contingency balance.

Budget Calendar

September, 2024 - January, 2025

CIP	Identify projects, define project scopes, prepare cost estimates, and prioritize projects.
------------	--

February, 2025 - March, 2025

CIP	CIP requests presented to City Manager's office for review. After City Manager's Office review, CIP is presented to the Planning Commission.
------------	--

Budget	02/10 - 02/21	Finance compiles departmental salary and fringe benefit summaries.
	02/10 - 02/21	Finance enters initial three year budget estimates in BSA.

CIP	02/24	Department summary capital needs due to Finance.
------------	-------	--

Budget	03/10	Departmental three year budget projects available in BSA for review.
---------------	-------	--

Budget	03/24 - 03/28	Department meetings with Finance and City Manager.
---------------	---------------	--

April, 2025

Budget	04/14	Presentation of Capital Plan to Planning Commission.
CIP	04/16	City Manager budget draft complete.

Budget	04/28 - 05/02	City Manager gives City Council, budget update.
---------------	---------------	---

Budget	04/28 - 05/02	City Council budget review session.
---------------	---------------	-------------------------------------

May, 2025

Budget	05/05	City Council budget review session (if needed)/Public Hearing request.
---------------	-------	--

Budget	05/07	Budget Public Hearing Notice published.
---------------	-------	---

Budget	05/19	Budget Public Hearing.
---------------	-------	------------------------

Budget	05/19	Final budget, fee schedule and millage rate adoption.
---------------	-------	---

Department Descriptions & Performance Measures

In accordance with state law, the City of Oak Park's budget is prepared on the modified accrual basis for governmental type funds, and its accounting records are also maintained on that basis. Under modified accrual accounting, revenues are recorded when they are both measurable and available. Expenditures are recorded when a liability is incurred, except for interest on long-term debt and accrued vacation benefits. Governmental fund types, such as the City's General Fund, Special Revenue Funds, Debt Service Funds and Capital Projects Funds are reported on the modified accrual basis. The City's Enterprise Fund, Internal Service Funds and Pension Trust Fund are reported on the full accrual basis, under which revenues are recorded when earned and expenses are recorded when incurred.

Mayor and City Council (101-10.101)

Overview

The City of Oak Park City Council is composed of five elected officials: one Mayor and four Council Members elected at-large by the community. Oak Park maintains a Council/City Manager form of government in which the City Manager oversees all staff and is responsible for the daily operations of the City. The Council's legislative powers are shared equally among all five members, and regular meetings are scheduled for the first and third Monday of each month. Collectively the Mayor and City Council are responsible for establishing policy, adopting a budget, and hiring and directing the City Manager. Additionally, City Council appoints a City Attorney who provides direction regarding legal and legislative issues. City Council also represents the City in various local, regional, state, and national boards and committees. All members have a duty to provide public leadership and communicate with their constituents and the citizens of Oak Park, regarding issues of concern.

This document, the City budget, represents the largest policy-making decision the City Council must make each year. In addition to defining the types of public services that the City provides, this document also determines the level of service necessary to meet the needs and demands of the residents. It includes annual operational costs and any special capital purchases or projects the Council believes are needed during the course of the next fiscal year.

Performance Measures

- Continue to emphasize the priorities and corresponding objectives adopted in the Strategic Plan
 - Administrative Operations
 - Economic Development
 - Governance
 - Marketing/Communications
 - Public Services
 - Technology

City Manager (101-11.172)

Overview

The mission of the City Manager's Office is to manage the delivery of City services efficiently and within the guidelines and policies established by the City Council; to provide the organization with leadership that ensures overall effectiveness, long-term financial stability, and development and execution of long-term fiscal and organizational plans that support community priorities and contribute to the sustainability of the community.

Performance Measures

- Continue to emphasize community and economic development to attract and retain businesses in the community. This economic stability can reduce the financial burden of funding all of the City's public services on residential taxpayers.
- Continue to implement City Council's priorities and objectives adopted in the Strategic Plan.

Human Resources (101-11.270)

Overview

The Human Resources Department has an interactive purpose with the City's staff. Human Resource policies and procedures are implemented and administered through this department. Union contract negotiations are also conducted through the Human Resource function. Support is given to employees by handling complaints, disputes and grievances. Staff development and training is also a priority for Human Resources. This department also plans employee hiring and new employee orientation.

Performance Measures

- Plan regularly scheduled employee workshops (i.e. workplace violence).
- Implement a city-wide Wellness Plan.
- Revise and update the City's Policy and Procedure Manual.
- Provide fair resolutions to employee complaints.

Community and Economic Development (101-11.611)

Overview

The Community and Economic Development Department is committed to the growth and prosperity of the City of Oak Park. Working together with all stakeholders, including businesses, property owners, residents, and neighboring communities, the department provides necessary staffing and resources to achieve continuous growth toward a thriving and sustainable community.

The results of a flourishing business sector can improve the local and regional economy. This not only provides convenience to residents, but local businesses can collaborate to use each other's goods and services.

Economic Development can result in a stronger tax base, which can provide higher tax revenues and increase the revenue of various licenses and fees.

In conclusion, the Community and Economic Development Department is focused on implementation of key items recognized in our Strategic Economic Development Plan to increase the vitality of the City

through the planning and implementation of initiatives which will help increase the quality of life and attract new residents, business owners, and stakeholders.

Performance Measures

- To improve the economic outlook for the City by providing information to promote Oak Park as an appealing place to live, conduct business and visit.
- Working with the City's Planning Commission to achieve continual improvement of the city's zoning ordinance to help the City of Oak Park be competitive in the 21st Century business market.

Information Technology (101-12.258)

Overview

The Information Technology Department provides and supports all technologies relating to the gathering, analysis and dissemination of information to both City Departments and the general public. The main areas of concentration are the BS&A system, which handles all financial information, Local Area Network (LAN) for personal computer users, and the Internet for the general public.

Performance Measures

- To provide support to all departments and to ensure that they are operating efficiently from an IT perspective.
- Respond in a timely manner to all requests for technical difficulties.
- Maintain the City's technological infrastructure to keep it functioning properly.

Legal (101-13.210)

Overview

The City Attorneys shall act as legal advisors to, and act as attorneys and counsel for the City Council and shall be responsible solely to the council. They shall advise the City Manager or department heads of the City in matters relating to official duties when so requested and shall file with the clerk a copy of all written opinions given. Duties also include the preparation or review of all ordinances, contracts, bonds and other written instruments which are submitted to them by the council and shall promptly give their opinion as to the legality thereof. The City Attorney shall call to the attention of the council all matters of law, and changes or developments therein, affecting the city.

The City Labor Attorney shall be responsible for personnel and labor related matters.

Performance Measures

- Perform such other duties as may be prescribed by the City Charter or by the council in the most efficient way possible.
- Continue efforts to clean the Michigan Tax Tribunal docket of all property tax appeals within the City.
- The Labor Attorney, along with the City Attorney will assist City Council and the Administration in the negotiations of all labor contracts within the City.

Prosecuting Attorney (101-13.229)

Overview

The Prosecuting Attorney shall prosecute such ordinance violations and he shall conduct for the City such cases in court and before other legally constituted tribunals as the council may request. He shall file with the clerk copies of such records and files relating thereto as council may direct.

Performance Measures

- Continue to perform prosecuting duties on behalf of the 45th District Court.

City Clerk (101-14.215)

Overview

The City Clerk's Office is the information center of the City. As a professional liaison between the City, its residents and the general public, the Clerk's office provides administrative services on a daily basis for the community maintaining neutrality and impartiality.

Performance Measures

- Continue to provide quality administrative services to residents of Oak Park and the general public.

Elections - City Clerk (101-14.191)

Overview

The City Clerk's Office is responsible for the administration of all election activity in the City of Oak Park. Election dates are typically the first Tuesday following the first Monday in the months of August and November. The local jurisdiction is comprised of 16 Precincts and is represented by the School Districts of Oak Park, Berkley and Ferndale.

Performance Measures

- Continue to provide a responsive, transparent and professional approach to conducting elections that will inspire trust and confidence in our work and promote participation of all eligible citizens.

Finance and Administrative Services (101-15.201)

Overview

The Department of Finance and Administrative Services is comprised of four divisions: Accounting, Assessing, Treasury, and Water & Sewer Billing and Collection. Funding is provided by the General and Water & Sewer Funds.

The Department is responsible for the collection of revenues, including but not limited to, real property taxes, personal property taxes, license and permit fees, penal fines, and fees for services. Revenues that are collected are disbursed by various departments as appropriated by City Council during the yearly budget process. The preparation of the Annual Budget and The Comprehensive Annual Financial Report (CAFR) is headed by this department.

The Utility Billing and Collection Division is responsible for the billing and collection of fees for water, solid waste and sewer services. This division is detailed in the Water & Sewer Fund in this document.

The Assessing Division is responsible for maintaining the property records of the City. This includes establishing and maintaining assessed values of real and personal property. The Board of Review is conducted yearly, which allows citizens to challenge their assessment established by this division.

Performance Measures

- Strive to provide excellent customer service to residents and non-residents alike.
- Maximize interest revenues through intelligent investing.
- Utilize the latest technology for accepting payments; such as internet options.

Municipal Services

- **Inspections (101-16-371)**
- **Administration (101-16-401)**
- **Engineering (101-16-447)**
- **Street Lighting (101-16-448)**

Overview

The Department of Municipal Services consists of the following divisions: Building Inspection, Code Assistance, and Engineering.

The Building Inspection and Code Assistance Divisions are responsible for:

- Issuance of all permits.
- Inspection of work related to construction of all structures in the City.
- Perform Rental Unit Inspections.
- Zoning ordinance enforcement.
- Certifying all work performed under the provisions of the electrical, plumbing, mechanical and building codes of the City.
- Investigation of all alleged ordinance and code violations related to City parking lots, signs, offensive conditions, anti-blight, garbage and rubbish containment, weeds and rodent control, dog pound and animal care, and certain types of parking offenses.

The Engineering Division is responsible for:

- All matters related to construction of physical properties within the City's infrastructure.
- Planning related to changes to the City's physical properties.
- City engineering services.

Performance Measures

- Effectively administer and monitor all on-going projects in the City.
- Investigate and resolve Code Violations.
- Continue aggressive Rental Registration and Inspection programs.
- Plan miscellaneous concrete repairs related to water and sewer repairs.

Public Safety

- **Law Enforcement, Fire Suppression, Emergency Services & Administration (101-17-345)**
- **K9 Unit (101-17-346)**

Overview

We exist to serve the community. Our mission is to improve the quality of life in the City of Oak Park by working together with all citizens to protect life and property, to promote safety, to maintain public order, and to preserve human rights.

The Department of Public Safety is responsible for:

- Operation of a uniformed patrol force for routine investigations and the general maintenance of law and order.
- Operation of short-term prisoner holding.
- Operation of an Investigations Bureau responsible for investigation of crimes, and the preparation of evidence for the prosecution of criminal cases and offenses in violation of the Code of Ordinances of the City of Oak Park and State Law.
- Prevention and control of juvenile delinquency, the identification of crime hazards and the coordination of community agencies interested in crime prevention.
- Control of traffic, traffic safety educational programs, school patrols and coordination of traffic violation prosecutions.
- Efficient and prompt extinguishment of fires which endanger or are likely to endanger life or property. Also, maintenance and operation of fire-fighting equipment.
- Investigation and inspection of potential fire hazards and the abatement of existing fire hazards.

The K9 Unit will benefit the Public Safety Department. Since dogs have keener senses than humans, they will be able to locate suspects in hiding or identifying illegal substances. In both circumstances, dogs can detect people or evidence that can easily be missed by humans.

Performance Measures

- Respond promptly, courteously and effectively to 100% calls for service.
- 100% of evidence and property to be accounted for an annual property room audit.
- 100% of initial follow-up contacts on criminal cases made within 5 days.
- 90% of follow-up investigations on assigned criminal cases completed within 45 days.
- 100% response to public requests for reports in compliance with the Freedom of Information Act guidelines.

Department of Public Works

- **Administration (101-18-441)**
- **Building Maintenance (101-18-265)**
- **Shepherd Park (101-18-443)**
- **Other Parks - Forestry (101-18-444)**

Overview

The Department of Public Works has five divisions: Streets; Water Supply; Parks & Forestry; Motor Pool; and Facilities Maintenance. Expenditures by the DPW are paid from six funds: General; Major Streets; Local Streets; Solid Waste; Water & Sewer; and Motor Pool.

The Streets division is in charge of the operation and maintenance of the City's streets and sewage system, including snow removal, sidewalk maintenance, refuse collection stations, and rubbish disposal service contracts. This division is also responsible for traffic sign installation and traffic pavement striping.

The Water Supply division is responsible for the construction, operation, and maintenance of City water mains, service connections, and meter installation. The Water Supply division is also responsible for all pumping and storage facilities that are part of the City Water Distribution system.

The Parks and Forestry division is in charge of the control and regulation of trees, including planting, development, maintenance, management and operation of parks, boulevards, and municipal parking lots. The Motor Pool division is responsible for the purchase and maintenance of the City's motor fleet.

Performance Measures

- Utilize the Collaborative Asset Management System (CAMS) for collaboration across jurisdictional and organizational boundaries. This allows for better workflow and greater response to service requests. DPW also is maintaining workloads by contracting out some services in order to concentrate on core competencies.

Community Engagement and Public Information (101-22.806)

Overview

The central mission of the Communications and Public Information (CPI) Department is to serve as an effective communication conduit between the City of Oak Park and its residents (and other critical stakeholders) in the efficient delivery of City-related news and announcements. The department's companion mission is to provide internal support and enhanced communications capability through the management of audio-visual resources. CPI manages two major areas of responsibility:

Collateral Marketing

- Produces and distributes the City's newsletter and Calendar/Annual Report.
- Assists municipal departments in producing marketing materials and publicizing events.
- Manages news media relationships and serves as frontline triage for media inquiries.
- Provides writing assistance for City-related presentations and video programming.
- Provides photography services for Human Resources and City-related special events.
- Secure advertising placements in City publications.

Electronic Communications

- Produces and airs municipal programs on Comcast OPTV 15 and AT&T including broadcasts of City Council meetings and special programs.
- Post timely announcements about City events and services on Comcast OPTV 16 and AT&T electronic bulletin boards and the City's web site.
- Manage social media web site presence and content.

Performance Measures

- Strengthen the City's brand.
- Effectively manage and maximize the quality of the City's existing communications vehicles via electronic bulletin boards, social media sites, cable stations and the City's web site.
- Identify and develop new stakeholder communication vehicles, as needed.
- Earn exceptional customer service ratings in providing communication support.

Non-Departmental (101-21.890)

Overview

The Non-Departmental activity is used for expenditures which cannot be specifically related to a department but affect the City at large. Items included in this activity are: benefits for retired workers of the City, community promotion, membership dues for the various organizations which the City belongs, and refunds to taxpayers who have settlements granted by the Michigan Tax Tribunal or the Board of Review. This activity is also used to record transfers-out to other funds.

Performance Measures

- Continue to explore cost saving opportunities in all areas.
- Continue to fund our long-term liabilities.

Library (111-20.790)

Overview

The mission of the Oak Park Public Library is to provide materials, services and information that meet the education, informational, cultural, and recreational needs of the City's diverse community. The library is an activity hub in our community, providing programming, classes, and other services to the residents.

Library cards are free to Oak Park residents and business owners upon presentation of a valid driver's license or current state ID and proof of residency or business ownership; a library card can then be used at over 40 public libraries in Southeast Michigan. Patrons may renew books over the phone by calling us at 248-691-7480 or by accessing our online catalog via the library web page. The library offers print and non-print materials for check out, as well as a large selection of audiobooks, CD's, and DVD's at no cost. Computer usage and wireless internet are provided free of charge for city residents. Remote printing from home, online magazine and book circulation, and the ability to scan and send items to cloud based services with our Document Station are some of the newest services available.

Performance Measures

- The library will be increasing the number and diversity of programs held, usage of online resources such as Zinio and Overdrive, and enhancing cooperative services with local municipal organizations and schools.
- The library will continue to look at potential cost saving measures and other forms of revenue to mitigate revenue loss in other areas, while increasing quality services and materials for all residents.
- The library will measure success by program attendance, materials circulation, and community feedback.

Brownfield Redevelopment Authority (Fund 112)

Overview

The Brownfield Authority plan was approved by City Council during FY 2004 - 2005. The Authority was made possible via the Brownfield Redevelopment Financing Act (PA 381) which is administered by the State of Michigan.

Since a redevelopment project means that its property value will increase, tax revenues will increase as well. The amount that the taxes increase in the first year are considered "captured taxes". This specific amount is used to pay for costs associated with the redevelopment project. These are reimbursed by the City as they are incurred.

Properties that are considered to be "functionally obsolete or blighted" can be considered. This is especially true towards those properties where redevelopment will result in the increase of the taxable value of that particular property.

Performance Measures

- Brownfield incentives are offered to developers to improve the areas where those sites are located that otherwise would be too costly to renovate without some type of financial incentives.

Major Streets (Fund 202)

Overview

The City's Major Street Fund is a Special Revenue Fund and is used to control the expenditure of motor fuel taxes. The motor fuel taxes are earmarked, by law and the State Constitution, for streets and highway purposes which are described in detail by the Michigan Department of Transportation.

The fund receives Act 51 revenues paid to Oak Park and accounts for the construction, maintenance, and other authorized operations pertaining to all streets classified as major streets within the City. In addition, this fund receives moneys paid to Oak Park for trunk-line contracts and accounts for moneys transferred to other funds. This Fund has been established to make it possible to show that the City has complied with all legal provisions of Act 51.

Charges for administering this fund are from the Department of Municipal Services which is responsible for the administration of all Major Street Projects. The City Engineer is appointed Street Administrator and is responsible for street improvements, maintenance and traffic operations, and the development,

construction, or repair of off-street parking facilities and construction or repair of street lighting. The Engineer represents the City in transactions involved with the Michigan Department of Transportation.

The Department of Public Works is responsible for the actual upkeep of the Major Streets which includes winter maintenance, sweeping, routine maintenance, and traffic services.

Performance Measures

- To increase the Undesignated Fund Balance to at least 10% of operating revenues and to at least 8.33% (one month) of operating expenditures.

Local Streets (Fund 203)

Overview

The City's Local Street Fund is a Special Revenue Fund and is used to control the expenditure of motor fuel taxes. The motor fuel taxes are earmarked, by law and the State Constitution, for streets and highway purposes which are described in detail by the Michigan Department of Transportation.

The fund receives 25% of Act 51 revenues paid to Oak Park and accounts for the construction, maintenance, and other authorized operations pertaining to all streets classified as local streets within the City. In addition, this fund receives moneys transferred from the Major Street Fund.

This Fund has been established to make it possible to show that the City has complied with all legal provisions of Act 51. Charges for administering this fund are from the Department of Municipal Services which is responsible for the administration of all Local Street Projects. The City Engineer is appointed Street Administrator and is responsible for street improvements, maintenance and traffic operations, and the development, construction, or repair of off-street parking facilities. The Engineer represents the City in transactions with the Michigan Department of Transportation.

The Department of Public Works is responsible for the actual upkeep of the Local Streets which includes winter maintenance, sweeping, routine maintenance, and traffic services.

Performance Measures

- To increase the Undesignated Fund Balance to at least 10% of operating revenues and to at least 8.33% (one month) of operating expenditures.

Park & Recreation Fund (Fund 208)

Overview

The Park & Recreation Fund will be making some exciting changes. An existing greenspace area will be transformed into a new Event Hub. This will feature a four-seasons farmers market and event space, an amphitheater for outdoor entertainment and a Memorial Garden. There will also be plenty of outdoor space for the community to gather. The Department of Recreation will administer everything to ensure that there is fun for people of all ages.

The Department of Recreation is responsible for community programming in City recreation areas and facilities. The department seeks to maintain and expand the variety of programs and events, as staff continues to sustain fiscal responsibility. Keeping fee requirements to a minimum, while supplementing operating revenues with grants, sponsorships and donations are an added objective. In addition, the Recreation Department rents out the city facilities to the community; which include picnic shelters, the pool, athletic fields and the community center. This additional revenue helps to supplement Recreation programs and maintain facilities. A new fund has been created due to the passage of a new millage. This will allow for greater opportunities for the department.

The Recreation Department is also responsible for the investigation of all alleged violations of the City of Oak Park Codified Ordinances as they pertain to recreation and park facilities. Park Rangers and Building Monitors are assigned to assist in the enforcement of code provisions, rules and regulations while providing excellent customer service for all our patrons.

Performance Measures

- Provide well-rounded recreational experiences and quality facilities for our residents
- Celebrate the diversity of our community and offer programs and events that reflect the needs of all residents equitably.
- Continue to seek additional sponsors, grants, and partners to expand our programs and resources
- Continue to foster a cooperative relationship with the schools, the neighboring community recreation departments, community groups, businesses, healthcare facilities, local and regional organizations, Oakland County Parks, Michigan State Extension, MParks, and the Department of Natural Resources to expand programs and special events.
- Continue to work with other City departments to maintain, enhance and create safe parks and resources for optimal program opportunities for our community.

Solid Waste (Fund 226)

Overview

The Solid Waste Fund is used to finance the collection, disposal and recycling of the City's garbage and refuse. These activities are administered through the Department of Public Works. The City's refuse collection is provided by a private contractor on a weekly basis. This has resulted in a substantial decrease in the cost of solid waste collection. The City also maintains a contract with SOCRRA (Southeastern Oakland County Resource Recovery Authority) for the disposal of solid waste as well as the handling of recyclables.

Performance Measures

- To encourage and provide information regarding recycling so participation will continue in all neighborhoods of the city.

Corridor Improvement Authority (Fund 251)

Overview

The Oak Park City Council determined that it is necessary, in the best interest of the public, to halt

property value deterioration and increase property tax valuation where possible in its business districts. City Council created the Corridor Improvement Authority to eliminate the causes of deterioration and to promote economic growth.

Performance Measures

- To maintain and upgrade the economic viability of the designated corridors, which include portions of Nine Mile Road, Eleven Mile Road and all of Coolidge.

Drug Law Enforcement (Fund 253)

Overview

This Fund is used for the accounting of funds collected in drug arrests. These Funds are restricted by State Law and must be used for narcotic enforcement purposes.

Performance Measures

- To continually monitor and take advantage of the monies available in this fund so the City's Public Safety Officers can have access to the resources they need.

PA302 Justice Training (Fund 254)

Overview

This fund is used for training in the Public Safety Department and is financed by fines levied at the 45th District Court. These Funds are restricted by State law and must be used for training personnel.

Performance Measures

- To effectively use available funds to keep up with the latest education and training trends.

Caseflow Assistance (Fund 256)

Overview

Funds for the Caseflow Assistance Fund are provided by the State of Michigan. The purpose of this program is to assist district and municipal courts in expediting drunken driving cases.

Performance Measures

- To use court time in an efficient manner to expedite all cases as they occur.

Michigan Indigent Defense Commission Grant (Fund 260)

Overview

The MIDC Act allows for equitable treatment and representation of indigent defendants who have been charged with a crime(s). Funding is provided by the State of Michigan.

Performance Measures

- This statewide program focuses on providing counsel to indigent defendants. The grant fund will assist with payments to attorneys for services. Also, defendants must be provided with private areas to converse with their attorneys. MIDC will provide funding to complete this requirement.

Community Development Block Grants (Fund 275)

Overview

The two grants utilized by the City are Code Assistance and Yard Chore services. The Code Assistance program provides City code enforcement to residents in low to moderate areas of the City. The monitoring of City Code compliance benefits all residents by protecting property values. Yard Chore Services aids all handicapped, senior citizens and low to moderate income households by providing a service that assists those that are not physically able to accomplish snow removal and grass cutting.

Performance Measures

- Funding from this program focuses on maintaining and improving various residential neighborhoods. Senior citizens, the handicapped and low to moderate income households are those who receive the greatest benefit.

45th District Court (Fund 276)

Overview

The 45th District Court serves the communities of Oak Park, Huntington Woods, Royal Oak Township, and Pleasant Ridge. The 45th District Court has two elected judges who hear traffic, criminal, civil, landlord/tenant, and small claims cases. There is also a part time magistrate appointed by the judges to assist with the caseload. The Court is managed by a Court Administrator who oversees court operations. The Court consists of five sections: traffic, criminal, civil, probation, and security.

Performance Measures

- The Court's objective is to provide the community full and fair access to justice. Additionally, the court strives to provide the best possible public service through efficient caseload processing.

Mental Health Court Grant (Fund 283)

Overview

The Mental Health Court program allows eligible participants who enter the criminal justice system an opportunity to participate in a probation program specifically designed to meet their needs. The goal of the program is to reduce both recidivism and the period of incarceration by providing access to appropriate treatment options through partnerships with a variety of agencies such as the Oakland County Community Mental Health Authority. This program is funded entirely by a Grant from the State of Michigan.

Performance Measures

- The primary objective of the Mental Health Court Grant is to reduce the risk of reoffending by providing intensive treatment options geared specifically to participants and their unique needs. This is typically accomplished through an extended probation, testing, and mandatory treatment and counseling.

Veterans Treatment Court Grant (Fund 284)

Overview

The Veterans Treatment Court program allows eligible veterans who enter the criminal justice system an opportunity to participate in a probation program specifically designed to meet their needs. The

goal of the program is to reduce both recidivism and the period of incarceration by providing access to appropriate treatment options through partnerships with a variety of agencies, including the VA. The Veterans Treatment Court is funded entirely by a grant from the State of Michigan.

Performance Measures

- The primary objective of The Veteran Treatment Court is to reduce the risk of reoffending by providing intensive treatment options geared specifically to veterans and their unique needs. This is typically accomplished through an extended probation, testing, and mandatory treatment and counseling.

Stormwater Utility (Fund 580)

Overview

The Stormwater Utility Fund is the first of the City's two City Enterprise Funds. The fund is financed and operated in a manner similar to a private enterprise. The purpose of this fund is to fairly charge residents for stormwater runoff into the City's sewer system. This method will separate this runoff from sanitary sewage, since both types share the same system. The costs (expenses, including depreciation) of treating stormwater sewage is recovered as a separate charge appearing on all water billings. The fund uses full accrual accounting based on Generally Accepted Accounting Principles (GAAP) and follows accounting and financial activities prescribed by the Financial Accounting and Standards Board (FASB) as long as it does not conflict with the Government Accounting Standards Board (GASB) guidance. This fund is subject to the informational budget summary requirements of Act 2 of the Public Acts of 1968, as amended.

Several activities comprise the Stormwater Utility Fund: Billing and Collection, Water and Sewer Administration, and Maintenance and Repair. The latter activity is administered by the Department of Public Works. The previous two functions are administered by the Finance Department. Also included in this fund is the activity for the George W. Kuhn Drain Bond.

Performance Measures

- To fairly charge all customers for stormwater runoff collection and treatment according to individual usage.
- Inform residents about reducing their runoff charges through the use of various methods. Examples include rain barrels and transforming unused impervious surfaces into gardens or lawn space.
- To respond to residents quickly and also to assist in the needs of other City departments.
- To ensure the City's stormwater Capital Improvement Program revenues and expenditures are properly accounted for and managed.

Water and Sewer Utility (Fund 592)

Overview

The Water and Sewer Fund is the City's second Enterprise Fund. The fund is financed and operated in a manner similar to a private enterprise. The intent is that costs (expenses, including depreciation) of providing water and sewer services to the general public are recovered through user charges. The fund uses full accrual accounting based on Generally Accepted Accounting Principles (GAAP) and follows accounting and financial activities prescribed by the Financial Accounting and Standards Board (FASB) as long as it does not conflict with the Government Accounting Standards Board (GASB) guidance. This fund is subject to the informational budget summary requirements of Act 2 of the Public Acts of 1968, as amended.

Five activities comprise the Water and Sewer Fund Services: Billing and Collection (administered by the Finance Department), Water and Sewer Administration, Transmission and Distribution, Pump Operations, and Maintenance and Repair. The latter four functions are administered by the Department of Public Works.

Performance Measures

- To continue to maintain radio meter reading devices so as to improve meter reading efficiency.
- To continue to televise sewer lines. This gives an accurate inspection of sewer infrastructure, and also for viewing normal routine sewer cleaning.
- To respond to residents quickly and also to assist in the needs of other City departments.
- To continue in the repair and replacement of fire hydrants and the upgrade of pump stations and reservoirs.
- To reduce accounts receivable by placing charges that have been delinquent at six months on the next available tax roll.

Motor Pool (Fund 654)

Overview

The City fleet is comprised of all vehicles which are used for City business on a daily basis. All police, fire, public works vehicles and equipment are included and accounted for in the Motor Pool fund. Vehicles and equipment are approved on a yearly basis.

Performance Measures

- To strengthen and implement a vehicle and equipment replacement program to insure that the City's vehicles and equipment will be replaced, as needed and on a regular basis.

Self Insurance/Risk Management (Fund 677)

Overview

As a city, we are exposed to various risks of loss related to torts. These include: theft, damage to and destruction of assets, errors and omissions, injuries to employees and natural disasters. The City is self-insured for its workers' compensation coverage and carries commercial insurance for other risks of loss.

The City's liabilities for claims are recorded when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. Liabilities include an estimated amount for claims that have been incurred but not reported.

The Workers' Compensation Fund charges the other funds an amount, based on a percentage of each fund's estimated current year payroll, that will provide for future expected and unexpected losses.

Performance Measures

- To monitor safety on all job sites throughout the City in order to maintain a low experience rate for the calculation of insurance premiums.
- The City is also attempting to ensure that City staff is fully aware how safe work habits can contribute to lower claims. This can allow for a decrease in expenditures in this fund, and as a result, benefit the General Fund.

45th District Court Retiree Health Care (Fund 678)

Overview

The Retirees Health Care Fund was created in FY 1995-96 to account for the cost of health care for retirees of the 45th District Court. Funding comes from the collection of a \$20.00 per ticket assessment for civil infractions. During FY 2013-14, 45th District Court retiree health care benefits became fully self-insured. It is anticipated that this alternative will help offset constantly increasing health care premiums that are associated with a fully insured plan design.

Performance Measures

- To closely analyze and track health care costs in the future to ensure the health of this Fund.

City of Oak Park Retiree Health Care Fund (Fund 680)

Overview

This fund is in addition to the City's Employee Retirement system. These funds will be used for future City retiree health care costs.

Performance Measures

- To review thoroughly all quarterly reports to monitor investment performance.

Employees' Retirement System - General (Fund 731)

Overview

The Employees Retirement System was established on July 1, 1951 to enable the creation of a sound and efficient means of providing retirement allowances for the employees of the City. The retirement system is funded by contributions made by both the City and active employees.

Performance Measures

- To review thoroughly all quarterly reports to monitor investment performance.

Employees' Retirement System – Public Safety (Fund 733)

Overview

In November 2012, a millage was passed by the voters to establish a separate Retirement System for Public Safety employees under 1937 PA 345 effective July 1, 2013. This allows for retirement benefits for Public Safety staff and for survivor benefits for their eligible dependents.

Performance Measures

- This fund allows the City's Public Safety Officers a separate Retirement System. The General Fund will also experience some relief, since Retiree Health Care Costs will be borne by this fund.
- To review thoroughly all quarterly reports to monitor investment performance.

Long-Range Financial Plan – Multi-Year Budget 2025-2028

The City of Oak Park has long recognized the need for planning to provide quality services to its residents. This is evident in the work performed by the elected officials, City staff and various committees and boards. The City has conducted many studies and has developed plans, policies and procedures that have guided the City in making sound decisions regarding infrastructure and services.

The City's focus on long-term financial planning will help ensure it continues its strong financial position. The City has historically prepared a two year budget and beginning with the June 30, 2017 budget is now using a three year budget, going beyond the requirement for adoption of an annual budget. The City of Oak Park over the past couple fiscal years has been able to get the General Fund into a strong financial position with the current and projected fund balance in conformance with GFOA recommended practices.

Under Michigan law, the maximum debt Oak Park can issue is \$114,017,280. The City's current debt applicable to this limit is \$18,812,719 or 16.50% of the amount allowed. The City currently has four debt issues (excluding the debt reported in the enterprise fund). In addition to paying down debt thru annual debt services payments, the City has taken advantage of the decline in interest rates and its upgraded credit rating to obtain more favorable rates through refinancing – lowering interest expenditures and paying off debt sooner than anticipated.

The City's long-range financial plans, which are defined throughout this budget document, include focuses and investments on the following:

- Investing in roads, intersections & signals, and sidewalks
- Improvements to existing parks and cultural services
- Increasing economic development
- Updating vehicles in the City's fleet

These long range financial plans link to the entity's strategic goals, which have been mentioned in the Budget Overview section. The 2025-26 budget includes the following items related to those goals and plans:

- \$4,946,200 investment in capital projects related to road resurface and reconstruction within the Major & Local Street Funds, the CIA Fund, the 11 Mile Road Parking Fund and the Water & Sewer Utility Fund
- \$2,805,000 investment in water and sewer infrastructure and \$700,000 for sewer lining
- \$45,000 for new Public Safety vehicle(s) (marked & unmarked)
- \$500,000 for an Event Hub
- \$800,000 for new Trail Systems in several City parks
- \$700,000 in capital projects for improvements to Tyler Park
- \$115,000 in automotive repair equipment for the Motor Pool and miscellaneous Public Works equipment
- \$345,000 for vehicle replacements for Public Works

- \$40,000 investment in capital projects for the Public Works facility as part of improvements and renovations
- \$25,000 for Court HVAC repairs
- \$150,000 for a Wayfinder sign
- \$586,000 for miscellaneous equipment for various departments

The 2026-27 and 2027-28 budget includes the following items related to the goals and plans above:

- \$4,537,000 in capital projects related to road resurface and reconstruction within the Major Street Fund, the Local Street Fund and the Water & Sewer Utility Fund, and the CIA Fund.
- \$820,000 in sidewalk replacement
- \$8,535,000 in sewer lining/repair projects and water and sewer infrastructure
- \$44,000,000 in capital projects for a Recreation Center
- \$2,000,000 for a new Event Hub
- \$300,000 for Community Center Campus additions and improvements
- \$25,000 for Court HVAC repairs
- \$100,000 in DPW facility repairs and improvements
- \$760,000 in vehicle purchases for DPW
- \$331,070 for new Public Safety vehicles (marked & unmarked)
- \$35,000 for a new Municipal Services vehicle
- \$117,000 for replacement and maintenance to various DPW vehicles and equipment
- \$1,650,000 for Key Park improvements.
- \$356,840 on other miscellaneous citywide capital projects

The annual 2025-26 budget is to be adopted by Council in May 2025. The Council will also acknowledge the multi-year budget in the form of a resolution. The City prepares the multi-year projection based on the best data available at the time. The research includes obtaining data from the County and the State of Michigan. This future outlook allows the City to plan rather than react to anticipated financial conditions. Significant revenue and expenditure assumptions for the 2025-26 fiscal year budget and the subsequent two years are included at the end of this section.

General Fund

General Fund

The General Fund is used to account for all financial resources traditionally associated with City government, except those required to be accounted for in another fund. The General Fund includes police, fire, technical and planning, engineering, public works, and internal services such as information technology and finance. The two primary sources of revenue for this fund are general property taxes and State Shared Revenue. In addition, the General Fund also receives revenue from licenses and permits, grants, fines and forfeitures and interest on investments.

Library Fund

Oak Park Public Library provides resources to support the educational, cultural, informational and recreational needs of its diverse community. The Library is funded primarily from property taxes in accordance with a special City Charter millage but also includes an annual subsidy from the General Fund.

Corridor Improvement Authority Fund

The CIA Fund (PA 280) will maintain and upgrade the economic viability of the City's business districts. This can be achieved by stopping property value deterioration, increasing property tax valuation and promoting economic growth.

Special Revenue Funds
Major Street Fund

The Major Street Fund's purpose is to account for expenditures associated with the construction and maintenance needs of the Major Street portion (as defined by State Act 51) of the City's street network. Of the 84.6 total centerline miles that make up the City of Oak Park road network, the City has 19.27 centerline miles of Major streets. Financing is primarily provided by the City's share of State gas and weight taxes.

Park/Recreation Fund

The Park/Recreation Fund is for the benefit of the Recreation Department. This fund was created to expand the scope of the entire department. One of the highlights is the creation of a new Event Hub on the greenspace on the west side of City Hall. The new Event Hub will feature a four-seasons Farmers Market and event space, an amphitheater for outdoor entertainment, a Memorial Garden, and outdoor space for the community to gather.

Solid Waste Collection Fund

The Rubbish Collection Fund is used to finance the collection, disposal and recycling of the City's garbage and refuse. This fund accounts for a City Charter authorized property tax millage along with annual rubbish fees bills to all customers. The rubbish fees are billed quarterly utilizing the water and sewer utility billing system. The solid waste activities are administered through the Department of Public Works and the City contracts with a private third party for weekly refuse collection.

Debt Service

Debt Service Funds are used to account for the accumulation of resources for, and the payment of, long-term debt principal, interest and related costs.

City Charter and Public Act 279 of 1909 (as amended) provide that the net indebtedness of the City shall not be in excess of 10% of the State Equalized Valuation of all real and personal property in the City, plus assessed value equivalent of Act 198 specific tax levies.

The schedules of indebtedness associated with special assessments are not included in the following information because the debt is paid with installment collections from benefited property owners.

Debt Summary

Description of Debt	Funding Source	Debt Outstanding 6/30/2024	Debt Service Payments 2024-25		
			Principal	Interest	Total
VOTED TAX GENERAL OBLIGATION DEBT FUNDS:					
2015 Refunding Bonds Street Imp.	Debt Service	\$ 3,995,000	\$ 575,000	\$ 159,800	\$ 734,800
2012 Refunding Street Imp. Bonds	Debt Service	2,605,000	645,000	71,675	716,675
2020 UTGO Refunding Bonds	Debt Service	7,580,000	535,000	227,400	762,400
2011 Library & Recreation Lease	Debt Service	1,340,000	80,000	52,775	132,775
Total Debt Service		\$ 15,520,000	\$ 1,835,000	\$ 511,650	\$ 2,346,650

**Debt Service Requirements to Maturity
Fiscal Year 2025-2037**

Year Ended June 30,	Principal	Interest

2026	1,895,000	448,475
2027	1,950,000	347,850
2028-2032	6,495,000	729,750
2033-2037	3,340,000	247,650
	<u>\$ 15,520,000</u>	<u>\$ 2,281,050</u>

Computation of Legal Debt Margin

The Debt Policy approved by the City Council puts forth these debt limits:

- The City's net bonded indebtedness incurred for all public purposes should not exceed \$2,500 per capita.
- Debt service payments are limited to 20% of the combined operating and debt-service fund expenditures.
- Municipal securities issued for capital improvement purposes shall not exceed 5% of the state equalized valuation of the property assessed in the City of Oak Park.

Obligations which are not included in the computation of legal debt margin are:

- Special Assessment Bonds;
- Mortgage Bonds;
- Michigan Transportation Bonds;
- Revenue Bonds;
- Bonds issued, or contracts or assessment obligations, incurred, to comply with an order of the Water Services Commission (now the Department of Environmental Quality) or a court of competent jurisdiction;
- Other obligations incurred for water supply, sewage, drainage or refuse disposal projects necessary to protect the public health by abating pollution.

Capital Improvement Program

Introduction

The City of Oak Park's Capital Improvement Program (CIP) is a planning tool, with a goal to identify and schedule capital improvements over a six-year period between fiscal years ending 2026-31. The CIP is an opportunity to formulate strategic long-term policy decisions that extend beyond the 2025-2026 fiscal year. Each year, the City of Oak Park invests significant time and resources to design, construct, and maintain the infrastructure and facilities needed to deliver municipal services to residents and businesses. Because of the high costs associated with building and maintaining capital assets, the City must carefully balance the need for such assets with our requirements to sustain a strong financial position.

Oak Park's CIP is a six year balanced plan that addresses projects that are needed, or will be needed, across a broad spectrum of areas. Annually, a significant amount of effort is expended to update the CIP to ensure not only critical needs are being met, but also that the cost, scope and timing of all projects are coordinated throughout. Coordinating the timing of different projects in the same location is particularly important since it helps us to minimize service disruptions.

On July 3, 2000, City Council adopted a Capital Improvement Policy that established guidelines for the reporting and tracking of Capital Expenditures. These are identified as those items having a value of more than \$5,000 per item and have a useful life of at least two years following the date of acquisition. Capital projects include design and construction, as well as the acquisition of land and the purchase of capital assets. Maintenance-oriented, operational or continuous expenditures are not considered to be capital improvements.

Specifically, the purpose of the CIP is to:

- Identify and evaluate the needs for public facilities.
- Determine cost estimates for each capital project submitted.
- Determine if there will be future operating costs for such projects.
- Determine potential sources of funding for such projects.
- Adopt policies for implementing capital improvement construction.
- Anticipate and pre-plan projects with an emphasis on seizing opportunities for partnerships and alternative funding.

The projects identified in the CIP represent the City of Oak Park's plan to serve residents and anticipate the needs of the community and its aging infrastructure. The City considered all available documents in preparation of the CIP including review of the Master Plan, PASER rating reports for street conditions and historical reports and video review of the water and sewer lines.

Overview

The CIP helps track multi-year projects that may require planning, design, land acquisition and construction.

Definition of a Capital Improvement

The CIP allows for responsible and thoughtful planning of future major expenditures that are not necessarily financed or automatically included in the annual budgeting process. All capital projects, however, as they pertain to the definition of capital improvements above should be part of this CIP.

Impact of Capital Budget on the Operating Budget

As new policies and programs are approved, both the operating and capital budgets are impacted. For example, an increase in service levels approved as part of the operating budget would have long-term effects on the Capital Improvements Program. Conversely, a restrictive change to the use of long-term debt would slow capital programs. Regardless of the difference between the operating and capital budgets, the two are interdependent. Budgetary policy states that all foreseeable operating costs related to capital projects be estimated and provided for as part of the review process associated with the Capital Improvements Program. In addition, departments are required to include costs associated with operating and maintaining capital projects that are requested for the upcoming year.

Legal Basis of the Capital Improvements Program

The Capital Improvements Program has been authorized by the Michigan Planning Enabling Act (Public Act 33 of 2008). This mandate gives responsibility for preparing a CIP to local Planning Commission bodies, and reads as follows:

125.3865 Capital improvements program of public structures and improvements; preparation; basis.

Section. 65:

“(1) To further the desirable future development of the local unit of government under the master plan, a planning commission, after adoption of a master plan, shall annually prepare a capital improvements program of public structures and improvements, unless the planning commission is exempted from this requirement by charter or otherwise. If the planning commission is exempted, the legislative body either shall prepare and adopt a capital improvements program, separate from or as a part of the annual budget, or shall delegate the preparation of the capital improvements program to the chief elected official or a nonelected administrative official, subject to final approval by the legislative body. The capital improvements program shall show those public structures and improvements, in the general order of their priority that in the commission's judgment will be needed or desirable and can be undertaken within the ensuing 6-year period. The capital improvements program shall be based upon the requirements of the local unit of government for all types of public structures and improvements. Consequently, each agency or department of the local unit of government with authority for public structures or improvements shall upon request furnish the planning commission with lists, plans, and estimates of time and cost of those public structures and improvements.”

Planning and Benefits of the Capital Improvements Program

The CIP is first and foremost, a planning tool. It can be quite useful as a primary guide in implementing the Master Plan. With thoughtful foresight and review as a result of a CIP, the many outstanding capital projects that communities are faced with implementing every year, can be viewed as one package, rather than as small, fragmented groups or lists, with no unified sense of focus and direction. When capital improvements begin with careful planning and study, the City of Oak Park's chances for receiving State and Federal grants are greatly enhanced. Some grants require the inclusion of a CIP with their application. Formulation of a CIP assists those involved to look at alternative funding mechanisms that might not have been considered before. Instead of relying on local revenue sources alone, the CIP allows the City to think more creatively to fulfill Master Plan goals and policies. The CIP often avoids reactive planning, and instead replaces it with balanced initiatives.

CIP Development Process

Capital improvement planning has proven to be a year-round process, with City departments continually re-evaluating and prioritizing their capital needs. City staff identify and prioritize projects, estimate project costs, determine available resources, balance project requests within the available resources, and, ultimately, submit a recommended program/piece of infrastructure to the City Manager who recommends purchases to the City Council. Collaboration between the City Manager's office, Municipal Services, Department of Public Works (DPW), Information Technology Department, and the Finance Department coordinates the annual update of the six-year CIP as part of the annual budget process. Department staff also assist with forecasting revenues for the various funds used to finance capital projects, and set the financial parameters for the development of the CIP. Capital projects originate in the operating departments where subject matter experts identify needs based on master planning documents and other technical criteria. The Community and Economic Development Director recommends to the City's Planning Commission for their input prior to it being included in the City Manager's annual budget which is presented and considered by the City Council. On the following is an overview of the CIP development process:

September – January: Operating departments identify projects, define project scopes, prepare cost estimates, and prioritize projects based on direction received from the City Manager and City Leadership Team.

February - March: The CIP requests are presented to the City Manager's office for evaluation and consideration making necessary adjustments as needed. The CIP is provided to the Planning Commission after City Manager review.

April: The CIP is presented to the Planning Commission. City Administration finalizes the recommended CIP for the consideration of the City Council.

April: The CIP is included in the City Manager's proposed budget which is presented to the City Council.

Operating Budget Impact

The Capital Improvement Program will not have a significant impact on Oak Park's operating budget. Upon their completion, most capital projects require ongoing costs for operation and maintenance. Buildings require maintenance and repair. Roads require regular sweeping as well as periodic crack filling and sealing, patching, milling, minor resurfacing, and replacement of stripes and markings. Parks and landscaped rights-of-way (such as medians and streets shoulders) require irrigation, fertilizing, mowing, and trimming.

Departments submitting capital projects estimate the operations and maintenance costs of each project based on cost guidelines that are updated each year. The departments also consider any additional revenues or savings the City can reasonably expect to recognize upon completion of the project. The following is a list of specific Capital items to be funded in FY 2023-24 and their impact on this and future year's budgets.

- Decrease in road maintenance costs for road reconstruction projects.
- Decrease in liability insurance from replacement of damaged sidewalks.
- Increase operating costs for repairs to water and sewer lines identified in televised maintenance and lining program.
- Increase in water and sewer revenue and decrease in maintenance costs from replacement of several water lines.
- Decrease in maintenance and utility costs for rebuilding of water and sewer pumps.
- Decrease repair and maintenance costs related to the DPW Service Center. This includes wall repairs and roof replacement.
- Increase energy efficiency to help decrease utility costs related to the Court HVAC repairs.
- Increase in program revenue resulting from park improvements. These improvements will make the park properties more attractive. The most impactful project will be the addition an Event Hub on the greenspace on the west side of City Hall.
- Plans to build a new Recreation Center. The new facility will be more attractive, be able to allow more room for activities and will be more energy efficient.
- Decrease in repair and maintenance costs with the replacement of numerous Public Safety, DPW and Water and Sewer Department vehicles, machinery and equipment.

Capital Improvements by Fund (City Cost only; does not include outside leverage)

Program Funding

There are multiple methods available to local governments for financing capital improvement projects. Since capital improvements require large outlays of capital for any given project, it is often necessary to pursue multiple creative solutions for financing projects.

General Obligation (G.O.) Bonds

These types of bonds are especially useful for financing large municipal projects such as infrastructure improvements. They require voter approval and usually are used for projects that will benefit the residents of the entire community.

When the City sells G.O. Bonds, the purchaser is basically lending money to the City. The amount of the bond, plus interest is repaid through property taxes that the City, as the issuing authority, has the power to levy at the level necessary and within State guidelines to retire the debt.

A variation of the G.O. Bonds is the G.O. Limited Tax Bonds which can be repaid through tax millage. The interest rate for this type of issue is slightly higher than for the G.O. Bonds, and though voter approval is not required, a referendum period is afforded to the citizenry to challenge the proposed bond resolution.

Revenue Bonds

These bonds are generally sold as a means for constructing revenue-producing facilities such as water and sewer systems, and other such facilities that produce tolls, fees, rental charges, etc. Security for and payment of revenue bonds are typically based upon the revenue-producing facility or activity rather than the economic or taxpaying base.

Federal Grants

Funding is made available to cities through Federal grants and programs. Grants are usually subject-specific and require application by the local government for consideration. Amounts of grants vary and are determined by the grantor through criteria-based processes. The availability of grants is usually a competitive process, so creative and effective grant writing is crucial to receiving funding for capital improvement projects.

Building Authority

A Building Authority functions as a mechanism to facilitate the selling of bonds to finance public improvements. These bonds can be used as funding for buildings and recreational uses. Though voter approval is not required, a referendum period is afforded to the citizenry to challenge the proposed bond resolution.

Enterprise Funds

Enterprise funds are typically established for services such as water and sewer. Revenues are generated primarily through user charges and connection fees from those who benefit from the improvements.

Developer Contributions

Developers, as part of subdivision and site planning requirements, may provide infrastructure, open space and recreational facilities. Developers may contribute a share of funds to the government entity, or install the facilities themselves as local need arises, and/or during the construction process. Once completed, the local government entity may agree to maintain the facilities.

Special Assessments

Special assessment financing allows local government to collect special taxes from owners of property directly benefiting from capital improvements. These types of improvements often include streets and sidewalks, sanitary sewer, storm drainage, and water distribution systems.

Gas and Weight Tax

The City of Oak Park receives a formula-rated share of motor fuel and highway usage taxes from the State of Michigan to be utilized for transportation and maintenance-related projects.

Millage

Property taxes are based upon the local millage rate. Revenue received from property taxes may be used for capital improvements as part of the General Fund, but such improvements are usually smaller scale and less expensive.

General Fund

The General Fund for the City of Oak Park may be used for capital improvements; however, it is not the intent of the CIP to earmark these funds for projects. Instead, smaller scale, less expensive capital projects with a high priority could be funded as line-items.

State Shared Revenue

In addition to the Gas and Weight Taxes above which are shared revenue, the City receives its share of various taxes and fees from programs and requirements by the State of Michigan.

Public/Private Partnership

This type of financing has become increasingly popular in areas where creative financing is fostered. In many communities the local revenue share may not support some types of public improvements. In contrast, private developers may avoid taking on a project where the infrastructure cost far exceeds profitability. This method of funding brings both the public sector and private contributor together to share in the costs of a project, or a part of a project, which inevitably lessens the overall financial burden falling onto a single source.

Miscellaneous Funding

There are additional methods that are suitable for funding capital improvements. Examples of alternative funding methods are Tax Increment Financing (TIF), Impact Fees, Facility User Fees, etc. Current State legislation does not permit some of these funding methods, which have been used successfully in other states. Changes in legislation could see these and other innovative methods permitted in the future.

Capital Improvement Program

CIP Expenditures by Budget Category

The following is a table that summarizes the City's cost, as well as the leveraged funds, for all CIP projects by budget category.

DPS CIP#	PROJECT DESCRIPTION	FUNDING SOURCE	TOTAL	BUDGET	PROJECTED		FORECAST		
			CITY COST	FY 2025-26	FY 2026-27	FY 2027-28	FY 2028-29	FY 2029-30	FY 2030-31

SUBTOTAL			\$ 27,043,200	\$ 4,946,200	\$ 2,101,000	\$ 2,436,000	\$ 5,630,000	\$ 5,815,000	\$ 6,115,000

Roads

Transportation-related issues are a high priority for the City of Oak Park. The Capital Improvement Program addresses the maintenance and preservation of roadways as an important component of the program, which provides the necessary resources for scheduled pavement maintenance applications throughout the City.

Capital Improvement Program

The City of Oak Park contains both public and private roadways. Public roads are owned and operated by the Michigan Department of Transportation (MDOT), the Road Commission of Oakland County (RCOC), and the City of Oak Park. Private roads are owned and operated by private developments and homeowner groups. The City currently maintains approximately 84.6 miles of major roads and Neighborhood Streets. In order to define priorities and establish a course of action for the local street and major road rehabilitation programs, the City has a formal asset management program that categorizes roads based on their Pavement Surface Evaluation and Rating (PASER). Roads in poor condition would be candidates for reconstruction or rehabilitation. Those in fair condition would receive capital preventive maintenance, while roads in good condition would be candidates for routine maintenance work. The lowest rated roads in each of these categories would generally be addressed first. Maps of certain proposed road projects are included on the following pages.

Intersection and Signals

The City of Oak Park is 5.5 square miles with 84.6 miles of major and neighborhood roads. To facilitate safe motorized and non-motorized transportation throughout the City safe road and street intersections and traffic signals need to be designed and maintained year in and year out. Sample projects found in this category would include new traffic signals at City intersections, pedestrian crossing signals, turn lanes on major roads and roundabouts at key intersections to calm traffic.

Funding for proposed projects come from a variety of sources Major and Local Street funds, and various grant programs that fund traffic related projects.

Sidewalk and Pathways

The City of Oak Park is committed to providing non-motorized sidewalks and pathways in an effort to provide alternative modes of transportation for citizens and stakeholders alike. The Capital Improvement Plan incorporates plans to address sidewalks and pathways Citywide. The following are the projects recommended for the current year:

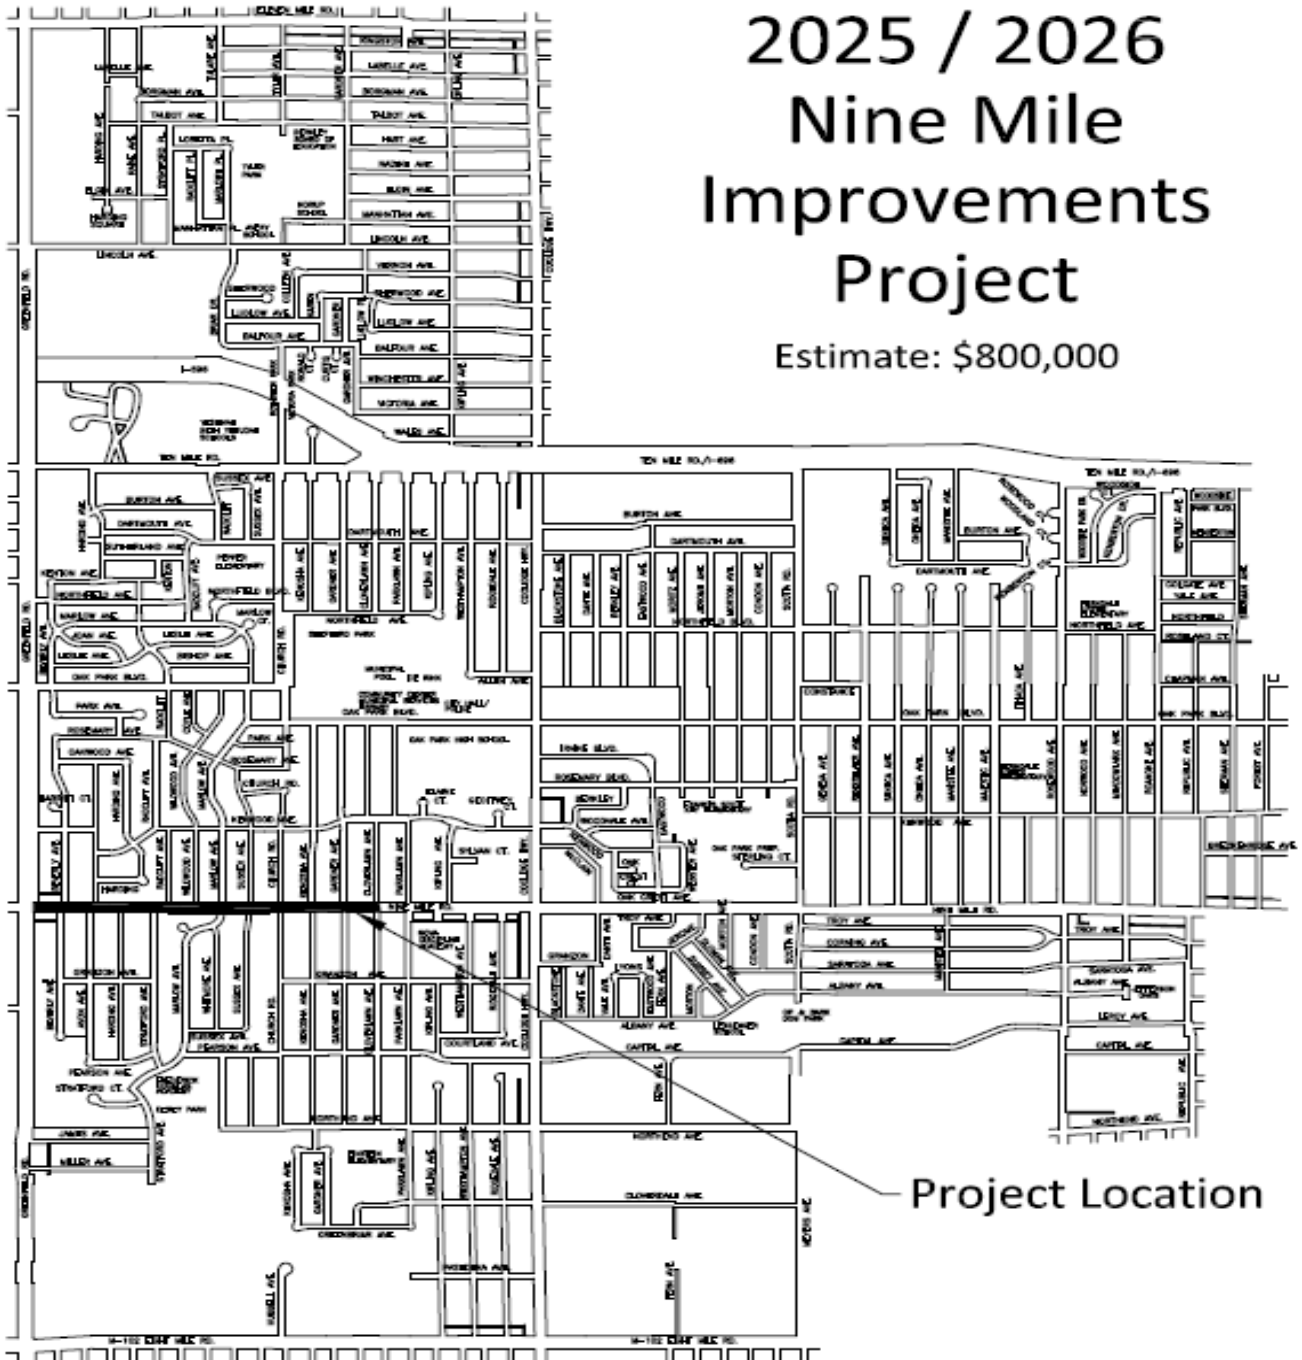

DPS CIP#	PROJECT DESCRIPTION	FUNDING SOURCE	TOTAL	BUDGET	PROJECTED		FORECAST

Estimate: \$150,000
Various Locations

Storm Sewer & Drainage

The City belongs to a consortium of cities known as the Twelve Towns Drain District. This district was formed to collect and treat sewage and storm water for 14 communities. In 1998 the Michigan Department of Environmental Quality (MDEQ) ordered the district to upgrade its retention facility and decrease its excess flows into Lake St. Clair. The total estimated cost of these improvements is \$130 million, of which the City of Oak Park is responsible for 13.48%. This project began in FY 2000-01. The District is borrowing funds through construction drawdowns to complete this project. No expenditures for this project are included in the City's CIP.

Sanitary Sewer

The City of Oak Park purchases sewage disposal services from Oakland County Water Resources Commissioner (OCWRC). The City currently has approximately 80.64 miles of sanitary sewer mains. These sewer mains are part of three separate districts: the Twelve Towns Drain System (known as the George W. Kuhn Drain), Major City Collectors and the Evergreen/Farmington System. The majority of the City is served by the Twelve Towns Drain District. The City of Oak Park Water & Sewer Fund, the Oakland County Water Resource Commission (OCWRC) and the Great Lakes Water Authority (GLWA) are all not-for profit entities and therefore rates are intended and required to only cover costs.

The development of the proposed sanitary sewer projects were based upon system deficiencies and needs obtained from area residents, business owners, and City staff. These projects are coordinated with storm water management, roadway, and pathway improvements to maximize cost savings through economies of scale, resulting in a more effective and efficient process to implement the construction projects.

The proposed water and sanitary sewer projects are flexible, allowing for the addition of new improvements to address specific needs without deferring other projects along the way. Studies and analysis of the existing system is an on-going program that, coupled with new technologies, provides for improved system capabilities and reliability.

Water and sanitary sewer projects identified as urgent are not subject to the rating/weighting scale required of capital improvement. Projects included in this category are funded by the City's Water and Sewer Fund which is financed through user rates and connection fees. The following maps are some of the current year proposed CIP projects:

Capital Improvement Program

DPS CIP#	PROJECT DESCRIPTION	FUNDING SOURCE	TOTAL	BUDGET	PROJECTED		FORECAST

Water Distribution

The City of Oak Park purchases treated water from Great Lakes Water Authority (GLWA). GLWA operates the largest water system in the State of Michigan and supplies water to roughly four million people. Water production is costly. Aging water and wastewater treatment systems must be maintained and replaced to ensure reliable service. Rate increases are primarily due to new and rehabilitative projects that are completed under the GLWA Capital Improvement Programs. GLWA rates reflect energy costs to maintain water pumps, water mains, and storage tanks necessary to transport water to our community.

The City is responsible for 115 miles of water main pipe, 967 fire hydrants and 10,484 water service connections. Projects included in this category are funded by the City's Water and Sewer Fund which is financed through user rates and connection fees.

Capital Improvement Program

Parks, Recreation and Cultural Services

Quality of life initiatives, such as those represented by parks; open space, and trails projects, are an important component of the Capital Improvement Program. The City of Oak Park Department of Recreation offers ball fields, picnic grounds, and playgrounds. Funding for parks, open space, and cultural events is primarily from the Recreation dedicated millage that was established for maintaining parks and recreation purposes. A dedicated millage of 0.4655 mills and impact fees make up the main funding source for Recreation Services.

Parking Lots

In addition to the “bricks and mortar” at the various operating facilities within the City of Oak Park, there are a number of parking lots. The City maintains the lots through annual budget appropriations but replacement and/or improvement of the lots fall under the capital improvement program.

Buildings and Property

Operational facilities are the “bricks and mortar” from which the City of Oak Park provides services to its residents and businesses. Increasingly, operational facilities also include the systems that facilitate service delivery in the information age. Projects include the maintenance, rehabilitation, renovation, and expansion of existing facilities.

Capital Improvement Program

Machinery and Equipment

Oak Park employees depend on dependable equipment to allow and assist them to do their jobs day in and day out. The equipment comes in many forms, plow trucks, generators, fire apparatus, etc., the equipment that literally keeps the City of Oak Park moving. All the vehicles found in this category are the cars and trucks that appear at the front doors of Oak Park residents and business owners such as public safety (police, fire, water, sewer and street maintenance). Generators that keep municipal buildings and a 911 call center operational during power outages. Oak Park City Council has established the precedent over the years in providing Oak Park employees with the tools necessary to do their job and provide the best level of service to the community.

Capital Improvement Program

Technology

The City of Oak Park continues to provide its customers and employees with the latest technology to support outstanding customer services. Technology includes items such as servers, storage and scanners for employees as well as items like security cameras, water and sewer flow monitors and alarms to ensure our customers are safe and have uninterrupted services.

Summary

On the following pages is the summary of the six-year CIP program which lists each project by category. It provides a CIP project number, a brief description of each project, the funding source and the year each project is scheduled to be funded:

City Owned Property Fund

This fund was established in FY 2002-03 for the purpose of purchasing distressed properties. Properties would be purchased thru the county tax foreclosure process. Any properties purchase would be brought up to code and resold. The fund is financed by contributions from the General Fund.

Special Assessment Fund – Eleven Mile Rd. Parking Lots

This fund was created to provide for the rehabilitation and improvement of parking lots along Eleven Mile Rd. A special District will be created to bill businesses through special assessments for these improvements. This fund will help to track how these special assessments are collected and spent.

813 SPECIAL ASSESSMENT FUND - ELEVEN MILE RD. PARKING LOTS

Enterprise Funds Stormwater Utility Fund

The charges for water charges and sewer charges are accounted for separately. This fund represents the sewer portion of water and sewer services. Stormwater runoff charges are billed on a pro-rated basis for all water customers in the City.

Water and Sewer Utility Fund

The City of Oak takes pride in providing safe and efficient water distribution and sanitary sewage collection systems. The fund is financed solely by charges to the users of the system. The rates are adjusted annually to ensure sufficient cash flow is available to pay for the operations, maintenance and replacement of the water and sewer system as well as any annual debt service payments.

Fund Balance

Fund Balance is the difference between assets and liabilities in a governmental fund. The governmental funds account for the City's bread-and-butter, are typically tax-supported activities of a government (as opposed to enterprise funds, which are self-supporting, business-like activities), and include the following:

- General Fund – where a government accounts for everything not reported in another fund
- Special Revenue Funds – for reporting specific sources that are limited to being used for a particular purpose
- Debt Service Funds – which account for the repayment of debt
- Capital Project Funds – which track the accumulation and use of resources for construction, acquiring, and rehabilitating capital assets (such as buildings and roads)

GASB 54

GASB Statement No. 54 creates five components of fund balance, though not every government or governmental fund will report all components. This approach is intended to provide users consistent and understandable information about a fund's net resources. The five components are:

Nonspendable Fund Balance

**cannot be spent (legally restricted or in unspendable form)*

- Amounts that cannot be spent due to form; for example, inventories and prepaid amounts. Also, long-term loan and notes receivables, and property held for resale would be reported here unless the proceeds are restricted, committed or assigned.
- Amounts that must be maintained intact legally or contractually (corpus or principal of a permanent fund)

Restricted Fund Balance

**externally imposed (law, creditor, bond covenant)*

- Amounts constrained for a specific purpose by external parties, constitutional provision or enabling legislation. This is the same definition used by GASB Statement No. 34, *Basic Financial Statements— and Management's Discussion and Analysis—for State and Local Governments*, for restricted net assets.

Committed Fund Balance

**constraints approved by Council*

- Amounts constrained for a specific purpose by a government using its highest level of decision-making authority. It would require action by the same group to remove or change the constraints placed on the resources.
- Action to constrain resources must occur prior to year-end; however, the amount can be determined in the subsequent period.

Assigned Fund Balance

**constrained by intent by City Council, or by the City Manager, or by a body/person to which City Council designates the authority*

- For all governmental funds other than the general fund, any remaining positive amounts not classified as nonspendable, restricted or committed.
- For the general fund, amounts constrained for the intent to be used for a specific purpose by a governing board or a body or official that has been delegated authority to assign amounts. Amount reported as assigned should not result in a deficit in unassigned fund balance.

Unassigned Fund Balance

**available to spend, unrestricted*

- For the general fund, amounts not classified as nonspendable, restricted, committed or assigned. The general fund is the only fund that would report a positive amount in unassigned fund balance.
- For all governmental funds other than the general fund, amount expended in excess of resources that are nonspendable, restricted, committed or assigned (a residual deficit). In determining a residual deficit, no amount should be reported as assigned.

The following governmental funds are anticipated to have significant changes in fund balance for FY 2025 - 26 (increase or decrease more than 10%):

Authorities

The Economic Development Fund is projected to fully deplete fund balance. These funds will be used for supporting business in the City to ensure economic success.

The Corridor Improvement Authority Fund is projected to fully deplete fund balance. These funds will be used for capital improvements including parking lot improvements.

Special Revenue Funds

The Major Street Fund is projected to decrease fund balance by approximately 99.98% during FY 2025-26. These funds will be used for road construction and rehabilitation projects.

The Local Street Fund is projected to decrease fund balance by approximately 25.88%. These funds will be used to absorb the increase in material costs for the various road projects that are scheduled.

Fund balance for The Solid Waste Fund is expected to decrease by approximately 11.34%. This is a result of increases in wages and fringe benefits.

The Narcotics Forfeiture Fund is projected to fully deplete fund balance. These funds will be used for updated furniture for the Dispatch area.

Major Revenue Sources, Assumptions, and Trends

Revenue forecasting is a standard practice for the City of Oak Park. Individual revenue line-items are reviewed for their historical trends in order to project revenues over the next three years. The forecast is also based on economic factors, as well as information provided by the State and County. In order to be prepared for unexpected events and lower than anticipated revenues or higher than anticipated expenditures, the City budgets conservatively. The following are summaries of revenue sources including underlying assumptions and significant trends.

Property Tax Revenue

The maximum allowable millage rates are used for all funds. Taxable value projections are as of April, 2025. The 2025 taxable value increased approximately 6.44%. Penalties and interest are based on historical collections, not most recent years. Inflation for the 2025 tax year is 3.1%. Due to anticipated growth, the City estimates an overall net decrease (see loss of personal property taxes discussed below) in revenue of approximately .04%.

The current millage rate is at 32.5831 mills. A significant factor that has been taken into account for the future year's taxable value is the decrease in the personal property tax, per State of Michigan law (SB 10) that erases the personal property tax on the industrial property and other businesses with equipment less than \$40,000.

Licenses, Permits & Charges for Services

This revenue includes fees for various services and licenses. Revenues also include estimated fees paid by developers and contractors for the plan review, inspection of commercial, industrial and residential construction which partially covers the cost of the Community Development Department. This revenue is difficult to project since it is directly related to construction activity. The City's building activity is projected to remain constant with a 0-7% increase in fees projected for the next three fiscal years. The remaining revenue relates to liquor licenses and other fees collected by the Clerks Department.

Transfers In

The General Fund receives transfers from various special revenue and enterprise funds as part of administrative allocations. The transfers in the special revenue funds represent transfers between the two street funds to cover construction costs as detailed in the six year CIP plan. Transfers to the debt service funds represent contributions from other funds to cover their share of annual debt service payments. The District Court Fund makes a contribution to the Internal Service Fund to cover court employee's retiree healthcare costs in excess of the fees collected on traffic tickets written.

State Sources

State Revenue Sharing The State Shared Revenue program distributes sales tax collected by the State of Michigan to local governments as unrestricted revenues on a per capita basis (2020 Census population for Oak Park was 29,560). The distribution of funds is authorized by the State Revenue Sharing Act, Public Act 140 of 1971, as amended (MCL 141.901). For fiscal year (FY) 2016, the legislature established the City, Village, and Township Revenue Sharing (CVTRS) program (a simplified version of the Economic Vitality Incentive Program (EVIP)). Each eligible local unit must meet all of the requirements of Accountability and Transparency in order to receive the full CVTRS payments. A Citizens Guide to the City's budget and a Debt Service Report are required under the CVTRS program. Overall revenue sharing is expected to increase by approximately 1.36% in fiscal year 2025-26.

MDOT Act 51 The City receives monthly payments from the State of Michigan, Department of Transportation (MDOT) for their share of the motor fuels taxes collected that are earmarked specifically for use on the roads. The distribution is based on the number of miles of road within the city. Revenue in fiscal year 2025-26 is expected to increase from \$2,682,243 in fiscal year 2024-25 to \$3,357,362. Local Streets revenue is expected to experience a decrease from \$1,065,561 in fiscal year 2024-2025 to \$1,038,753 in fiscal year 2025-226. Sources of Act 51 revenue include Federal Road funding, fuel taxes and vehicle registration fees.

Interest on Investments

This revenue is from investing available cash balances based on cash flow forecasts, capital reserves, and fund balance reserves. Interest rates are budgeted to remain constant over the next few years resulting in little or no growth in overall earnings.

Program Revenue

This revenue source is from the many programs offered by the Recreation Department and Ice Arena. The Recreation Department has approximately half its revenue funded from a dedicated property tax levy and the balance funded by program revenue. Program revenue is generated from program fees and various charges for special activities. Revenue will also be generated from fees from a new Dog Park. Recreation revenue trends are expected to remain flat for all future years.

Operating Revenue

This revenue represents charges to customers for water and sewer usage. Revenue in the Stormwater Utility Fund is estimated increase slightly from \$6,525,648 in fiscal year 2024-2025 to \$6,526,434 in fiscal year 2025-2026. Water and Sewer Utility Fund revenue is anticipated to increase from \$11,135,773 in fiscal year 2024-2025 to \$11,688,382 in fiscal year 2025-2026. There are plans for various projects to maintain and repair water mains across the City. Further detail regarding these project(s) can be located in the Capital Improvement section of this budget.

The revenues discussed above are the major revenue categories as identified by the City and make up the majority of the total revenues of all appropriated funds, including enterprise funds. The schedule on the following page summarizes total revenue for all fund types of the City.

Revenue Trends

The following is a historical look at projected and actual taxable values as well as the property tax revenue and mileage rates (assuming no rollback) required based on the estimated taxable values:

Additional revenue trends for property taxes, revenue sharing, MDOT Act 51 and overall revenue by fund is available in the Budget Overview section.

Expenditure Analysis

Personnel Services

The City of Oak Park budgets for full employment, maintaining a strong staff position control and budgeting system. Any additional cost savings as a result of vacancies, or positions filled at lower than budgeted amounts increases the fund balance, and is used in planning for the subsequent year's budget.

Personnel cost increases and decreases are pursuant to each of the current collective bargaining agreements. An increase of 1.5-3% each year, using FY 2022-2023 as base year, is assumed based on total personnel costs. Defined benefit pension contributions are based on annual Actuarial Assumptions. Employee health insurance costs are assumed to increase at 4-10% annually. The personnel assumptions are based on the number of staff as presented in the Departmental Information section; specifically the - Personnel Summary for the fiscal year 2025-2026.

Supplies, Maintenance, and Other Services and Charges

Most expenditures range from 0%-4% increase; certain maintenance items increased based on historical median rate (i.e. road maintenance items). Liability and property insurance are assumed to increase by an estimated 8.54% for fiscal year 2025-2026. Workers Compensation Insurance is expected to also increase by 2.91%. The City is committed to careful monitoring of safety conditions around various departments across the City.

Capital Outlay, Non-Recurring Items, & Technology

The Capital Outlay and/or non-recurring items are based on actual budget requests from departments. The City of Oak Park has a track record of replacing and maintaining assets, which not unlike businesses, allows the City flexibility in deferring capital purchases for a period of time during financially tight years.

Requests have been made for machinery and vehicle replacements of \$1,221,000 during FY 2025-26. While department allocation may change, total estimated replacement remains the same plus inflationary adjustment of approximately 3-9%.

Capital Improvements

The General, Major Street, Local Street, Capital Project and Water & Sewer funds reflect anticipated expenditures for each year based on the Capital Improvement Program.

Glossary of Budget and Finance Terms

The Annual Budget contains specialized and technical terminology that is unique to public finance and budgeting. To assist the reader of the Annual Budget document in understanding these terms, this budget glossary has been included in the document.

Glossary of Key Concepts

ACCRUAL BASIS

Accrual basis accounting recognizes transactions when they occur, regardless of the timing of related cash flows. The application of accrual accounting techniques prevents distortions in financial statement representations due to shifts in the timing of cash flows and related underlying economic events near the end of a fiscal period.

ACTIVITY

An office within a department to which specific expenses are to be allocated.

ADA

Americans with Disabilities Act - a law to provide a clear and comprehensive national mandate for the elimination of discrimination against individuals with disabilities, to ensure the facilities, policies, and programs of public entities and accommodations are equally accessible to the disabled.

APPROPRIATION

An authorization granted by a legislative body to incur obligations and to expend public funds for a stated purpose.

APPROPRIATIONS ORDINANCE

The official enactment by the City Council establishing the legal authority for the City to incur obligations and to expend public funds for a stated purpose.

BALANCED BUDGET

A budget in which estimated revenues are equal to or greater than estimated expenditures.

CAPITAL EXPENDITURE

A disbursement of money which results in the acquisition of or addition to fixed assets. The item must have a purchase price greater than \$5,000 and have a useful life of at least two years.

CAPITAL PROJECTS FUND

A fund to account for the development of municipal capital facilities other than those financed by the Enterprise Fund.

CFT

Commercial Facilities Tax - An exemption from property tax allowed to commercial businesses. This exemption has been discontinued.

CDBG

Community Development Block Grants - a federally funded program to assist communities in the expansion and improvement of community services, to develop and improve neighborhoods, and to restore and preserve property values.

COAM

Command Officers Association of Michigan - the bargaining unit representing the Public Safety command officers.

CONTINGENCY

An estimated amount of funds needed for deficiency, contingent or emergency purposes.

DEBT SERVICE FUND

A fund to account for the accumulation of resources for and the payment of general long-term debt principal and interest.

DEFICIT

An excess of liabilities and reserves of a fund over its assets.

DEPARTMENTAL MISSION STATEMENT

A mission statement provides the full range of activities that will be used in the results oriented budget format to link the municipal purpose with the financial resources of the department.

EMS

Emergency Medical Service - This service is provided by the Department of Public Safety.

ENTERPRISE FUND

A fund established to account for operations that are financed and operated in a manner similar to a private business, i.e., the intent of the governing body is that the costs of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges. (Water & Sewer is an example of an enterprise fund.)

EXPENDITURE

The cost of goods delivered and services rendered, whether paid or unpaid, including expenses, debt retirement not required as liability of the fund from which retired, or capital outlay.

EXPENDITURE OBJECT

An expenditure object is a specific classification of expenditure account which includes a number of related accounts determined by the type of goods and services to be purchased. For example, the personnel services expenditure object includes the wages account as well as all fringe benefit account. Expenditure objects include personnel services, supplies, other charges, capital outlay, debt service, and transfer out.

FAC

Final Average Compensation - An average of employees' annual wages used in the calculation of their retirement benefit.

FIXED ASSETS

Equipment and other capital items used in governmental fund type operations and are accounted for in the General Fixed Assets Group of Accounts rather than in the government funds. Such assets, which are recorded as expenditures at the time of purchase, do not include certain improvements such as roads, bridges, curbs and gutters, streets and sidewalks, and lighting systems. No depreciation has been provided on general fixed assets.

FTE

Full-time Equivalent - the equalization of part time hours to that of a full time worker in a like position.

FY

Fiscal Year -the 12 month period to which the annual operating budget applies and at the end of which a government determines its financial position and the results of its operations.

FUND

The accounts of the City are organized on the basis of funds and account groups in order to report on its financial position and results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities.

FUND BALANCE

The excess of a fund entity's accumulated assets over its liabilities. Typically, excess revenues over expenditures at year-end will increase a fund's fund balance.

GENERAL FUND

The City's major operating fund to account for all financial resources except those required to be accounted for in another fund.

G.F.O.A.

Government Finance Officers Association of the United States and Canada - a professional organization of public officials united to enhance and promote the professional management of governmental financial resources by identifying, developing and advancing fiscal strategies, policies and practices for public benefit.

IFT

Industrial Facilities Tax - An exemption from property tax allowed to industrial facilities.

INTERNAL SERVICE FUNDS

Internal Service Funds are used to account for the financing of goods and services provided by one department or agency to other departments or agencies of the governmental unit on a cost reimbursement basis. These funds use the flow of economic resources for measurement purposes and the full accrual basis of accounting. Included in this category are the Risk Management, Print Shop and Motor Pool Funds.

IWC

Industrial Waste Charge - a surcharge placed on all non-residential accounts by the City of Detroit.

LINE ITEM BUDGET

A budget which emphasizes allocations of resources to given organizational units for particular expenditures, such as, salaries, supplies services, and equipment. Line item budgets may be organized to provide accountability at varying levels, such as on department, division, or agency levels.

MIS DEPARTMENT

Management Information Services - this bureau is a service oriented provider of assistance for the City's technology program.

MODIFIED ACCRUAL

This basis of accounting recognizes revenues in the accounting period in which they are both measurable and available to finance expenditures. Expenditures are generally recognized in the accounting period in which they are both measurable and incurred.

MUSTFA

Michigan Underground Storage Tank Financing Authority - Funds provided by the State of Michigan for reimbursement of costs for the identification, removal and remediation of contaminated underground storage tank sites.

NSP

Neighborhood Stabilization Project – a federal program which funds the rehabilitation and/or demolition of undesirable properties. This project helps to control blight and can improve neighborhood property values.

OPERATING BUDGET

The operating budget is the authorized revenues and expenditures for on-going municipal services and is the primary means by which government is controlled. The life span of an operating budget typically is one year or less. Personnel costs, supplies, and other charges are found in an operating budget. A capital budget typically has a long term outlook where a project can span a several year period.

OSHA

Occupational Safety and Health Administration - The organization in state and federal government that oversees the workplace environment to insure it is safe for workers.

OTHER CHARGES

An expenditure object within an activity which includes professional services, utilities, rents, and training for example.

PERFORMANCE OBJECTIVES

Desired output oriented accomplishments which can be measured within a given time period.

PERSONNEL SERVICES

An expenditure object within an activity which includes payroll and all fringe benefits.

POAM

Police Officers Association of Michigan - The bargaining unit representing the Public Safety officers.

RESULTS ORIENTED BUDGETING

A management concept which links the annual line item budget to departmental results of operations.

REVENUE

An addition to the assets of a fund which does not increase a liability, does not represent the recovery of an expenditure, does not represent the cancellation of a liability without a corresponding increase in any other liability or a decrease in assets, and does not represent a contribution of fund capital in enterprise or in intra-governmental service funds.

SERVICE STATEMENT

A statement of general and specific service deliveries rendered by an activity for the community.

S.E.V.

State Equalized Value - the assessed value multiplied by the tentative equalization factor. Michigan law requires that assessed value be at 50% of market value.

SOCRRA

Southeastern Oakland County Resource Recovery Authority - the corporation that provides for disposal of solid waste as well as the handling of recyclables.

SPECIAL ASSESSMENT

Amounts levied against certain properties to defray all or part of the cost of a specific capital improvement or service deemed to benefit primarily those properties.

SPECIAL REVENUE FUND

A fund to account for the proceeds of specific revenue sources (other than special assessment, expendable trusts, or the major capital projects) that are legally restricted to expenditures for specified purposes.

SUPPLIES

An expenditure object within an activity which includes all items that have a useful life of less than one year and/or a purchase price of less than \$500 dollars.

SURPLUS

An excess of the assets of a fund over its liabilities and reserves.

TPOAM

Technical Professional Office Workers Association of Michigan - The bargaining unit that represents regular, full-time hourly, and salaried office clerical, professional/technical, and regular, part-time employees.

TRANSMITTAL LETTER

A written policy and financial overview of the City as presented by the City Manager.

TRANSFERS-IN/OUT

A legally authorized funding transfer between funds in which one fund is responsible for the initial receipt and the other fund is responsible for the actual disbursement.

TRUST & AGENCY FUND

Trust & Agency Funds are used to account for assets held by the City in a trustee capacity or as an agent for individuals, organizations, other governments, or other funds. These include the Employees Retirement System and the Agency Funds. The Employees Retirement System is accounted for in the same manner as a proprietary fund. Agency Funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

UNRESERVED FUND BALANCE

The balance of net financial resources that is spendable or available for appropriation or the portion of funds balance that is not legally restricted.

WATER & SEWER FUND

This enterprise fund accounts for the operation of a combined water & sewer system. The revenues consist of charges for services from City businesses and residences which are used to pay for all water and sewer related expenses.

Glossary for Expenditure Accounts

SALARIES

- **702 - SALARIES & WAGES**

This account is to be used to record all compensation paid to employees. This includes all regular pay, over-time pay, longevity pay, leave pay, and other taxable pay.

FRINGES

- **712 - EMPLOYEE BENEFITS/FRINGES**

This account is to be used to record the cost of all fringe benefits received by employees. This includes the cost of workers compensation, retirement, clothing allowance, dental insurance, health insurance, life insurance, accidental death and dismemberment insurance, long term disability insurance, FICA, and any other fringe benefit.

.001 - Retirees Health Care -for use in Non-Departmental to provide cost of this item.

.002 - Retirees Life Insurance -for use in Non-Departmental to provide cost of this item.

.003 -Retirees Dental -for use in Non-Departmental to provide cost of this benefit.

SUPPLIES, MAINTENANCE & REPAIRS

- **726 - MATERIALS AND SUPPLIES**

All materials and supplies consumed in normal operation should be charged to this account, except for those items which more correctly involve the Transportation classification. This account includes paper, envelopes, folders, writing utensils, miscellaneous materials, postage, in-house printing, photocopy cost (except for copy machine rental), and forms expenses. It also includes operating supplies such as ammunition, extinguisher recharges, licenses, playground and athletic supplies, testing supplies, and other miscellaneous supplies. Small tools, batteries, flashlights, shovels, rope and other such similar items should also be considered supplies rather than equipment (Capital Outlay).

- **727 – BOOKS**

For use in Library to provide the detail of the operating supplies required for circulation.

- **728 – PERIODICALS & PAPERS**

For use in the Library to provide the detail of the operating supplies required for circulation.

- **729 - VIDEO CASSETTES**

For use in Library to provide the detail for the operating supplies required for circulation.

- **930 - REPAIRS & MAINTENANCE**

All repair and maintenance costs, except those for automotive and radio equipment, should be charged here. Automotive repairs should be charged to the Transportation account (860).

OPERATIONS

- **801 - PROFESSIONAL SERVICES**

All legal fees, engineering fees, auditing and financial consulting fees, and other professional service fees should be charged to this account.

- **803 - MEDICAL/HEALTH SERVICES**

This account should be used for physicals requested in anticipation of employment as needed. Also for use to indicate the share of the cost of Health Insurance premiums paid by the Employees Retirement System for the retirees.

- **804 - EMPLOYEE RECRUITMENT**

This account is for the cost used in the recruitment of employees in Public Safety in order to maintain a listing for possible job vacancies.

- **807 - REFUSE COLLECTION**

This account is for use in the Solid Waste Fund to provide the detail the cost of refuse collection.

- **808 - REFUSE DISPOSAL**

This account is for use in the Solid Waste Fund to provide the detail of the cost of refuse disposal.

- **818 - CONTRACTUAL SERVICES**

This account is to be used for all services purchased by a department from an outside agency which do not belong in "801". This includes charges for rubbish disposal, fees for temporary help agencies, payments to board members, witness and jury fees, charges for computer programming services, and all other outside contractual services not delineated elsewhere.

- **830 - LOSS ON INVESTMENTS**

This account is for use in the Employees Retirement System for the cost of loss on investments.

- **860 - TRANSPORTATION**

This account should be charged for all gasoline, oil, auto repairs, and mileage, if the mileage does not more appropriately belong to another classification (e.g., Conferences & Workshops).

- **880 - COMMUNITY PROMOTION**

This account should be used for expenses of a public relations nature. This would include printing and mailing of brochures, citation plaques, and other miscellaneous public relation expense.

.001 - Fireworks -This account is to provide the cost detail for this specific event.

.002 - Employee Recognition Dinner -This account should be used to provide the cost of this specific event.

.003 - Boards & Commissions Dinner -This account should be used to provide the cost of this specific event.

.005 - 50th Anniversary -This account should be used to provide the cost of this specific expense.

- **881 - YOUTH ASSISTANCE PROGRAM**

This account exists strictly for the charges of this specific program.

- **920 - TELEPHONE**

This account should be used to provide the detail for this specific utility.

- **921- ELECTRICITY**

This account should be used to provide the detail for this specific utility.

- **922 - HEATING**

This account should be used to provide the detail for this specific utility.

- **923 - WATER**

This account should be used to provide the detail for this specific utility.

- **922 - SEWAGE DISPOSAL**

This account is used by the Water and Sewer Fund for this specific item.

- **925 - NON-RESIDENTIAL IWC**

This account is used by the Water and Sewer Fund for this specific item.

- **926 - INDUSTRIAL SURCHARGE**

This account is used by the Water and Sewer Fund for this specific item.

- **940 - RENTALS**

This account should be used for all rental expenses including rental of District Court facilities, rentals paid to the Building Authority for Recreation facilities, rentals of copying machines, and rentals of tools and equipment.

- **956 - MISCELLANEOUS**

This account should be used for any charges which do not properly belong in any one of the other account classifications.

- **957 - EVENT TICKETS**

This account is used by the Recreation Department to provide the detail for this specific item.

STAFF DEVELOPMENT

- **864 - CONFERENCES & WORKSHOPS**

All expenses relating to attendance at any conference or workshop should be charged to this account.

This includes registration fees, hotel bills, meal expenses, and transportation expenses (including mileage).

- **958 - MEMBERSHIPS & DUES**

This account should be used for memberships and dues in professional associations.

- **960 - EDUCATION & TRAINING**

This account should be used for tuition and other training expenses. There is a very fine line separating the classification from Conferences & Workshops (864). If questions arise as to the proper classification for a particular item, they should be discussed with the Finance Director.

- **965 - INCOME COMPENSATION**

This account is used in the Risk Management Fund to report income compensation payments made to claimants for workers compensation.

PENSIONS

- **874 - BENEFIT PAYMENTS**

This account is for use in the Employees Retirement System to provide the cost of the pension benefits paid to the retirees.

PRINTING & PUBLICATIONS

- **900 - PRINTING & PUBLICATION**

This account exists primarily for ordinance printing and advertising expenses. Form printing is considered to be in the Materials & supplies classification and should not be charged here.

- **901 - NEWSPAPER POSTINGS**

This account exists primarily for postings in newspapers.

- **903 - POSTAGE**

This account should be used to provide detail of the charges for the postage machine.

INSURANCE

- **910 - INSURANCE & BONDS**

This account should be used for all insurance and bond premiums, except for Workers Compensation and various employee fringe benefit insurance costs.

CONTINGENCIES

- **961 - CONTINGENCIES**

This account is used strictly by the Solid Waste Fund for items such as hazardous waste disposal, private hauler for sweepings and excavated material, roll off of leaves, etc.

REFUNDS & REBATES

- **964 - REFUNDS AND REBATES**

This account is used for settlement of Tax Tribunal decisions.

DEPRICIATION

- **968 - DEPRECIATION**

This account is used for the depreciation of fixed assets in the Enterprise and Internal Service Funds.

CAPITAL

- **970 - CAPITAL OUTLAY**

This account should be used for all purchases of fixed assets. This would include office furniture, machinery, equipment, vehicles, weapons, typewriters, and other fixed assets. Capital outlay items have a useful life of one or more years and cost more than \$5,000.

DEBT

- **991 - PRINCIPAL**

This account is used by the Water and Sewer for principal payment required on bond issues.

- **995 - DEBT SERVICE**

This account is used by the Water and Sewer Fund.

- **995 - INTEREST**

This account is used by the Water and Sewer Fund for interest payments required on bond issues.

TRANSFERS OUT

- **999 - TRANSFERS**

This classification is used to provide for transfers between funds.

**CITY OF OAK PARK
FISCAL YEAR 2025-2026 BUDGET AND
PROJECTED BUDGETS FY 2026-2027 FY 2027-2028
GENERAL AND SPECIAL FUNDS
BUDGET RESOLUTION**

GENERAL APPROPRIATIONS ACT RESOLUTION: 2025/2026 GENERAL FUND AND SPECIAL FUND BUDGETS:

Motion by , seconded by , CARRIED UNANIMOUSLY:

To approve the following General Appropriations Act Resolution outlining anticipated revenues and expenditures for the fiscal year beginning July 1, 2025 and includes projections for fiscal years 2026-2027 and 2027-2028, in accordance with Section 9.5 of the City Charter and State Act 621:

WHEREAS, the City Manager's recommended budget is based upon the City Council's strategic themes and property tax projections presented to City Council, and

WHEREAS, this budget has incorporated the Capital Improvement Program and was submitted at the Public Hearing held on May 19, 2025 and

WHEREAS, pursuant to the Oak Park City Charter, a detailed revenue and expenditure plan has been presented in accordance with all applicable City, State and Federal Statutes, and

WHEREAS, a Public Hearing was also held on May 19, 2025 on the proposed budget, and

WHEREAS, this budget takes into consideration the City's Multi-Year Budget and financial planning through fiscal-year 2026-2027, and 2027-2028.

NOW, THEREFORE, BE IT RESOLVED, that the fiscal year 2025-2026 attached budget (departmental basis) is adopted and that the City Council acknowledges the Multi-Year Budget, including Projections of Future Fiscal-Years 2026-2027 and 2027-2028 as part of this resolution.
